Brilliant Function. Beautiful Design

Pass-through Medication Boxes

CYGNUS INCORPORATED

ELLIOTT DATA SYSTEMS, INC.

Brilliant Function. Beautiful Design

CYGNUS INCORPORATED

Our pass-through medication boxes are designed to save time and protect patients' privacy. Medications can be dispensed from the hallway without needing to enter the patient room. Inside the room, the RN can access the cabinet through a second door and lock.

These medication boxes come standard with push-button locks. Our optional NetLock IP-based security system creates an extremely secure and auditable solution for medication and supply storage.

Features

- Double doors with pushbutton keyless locks
- Double 1" flanges Seals for airtight barrier
- Metal with powder-coated finish or Class-A, fire-rated wood laminate
- Push-button mechanical lock with one handed operation

Options

- Custom configurations available
- IP-based Network Lock
- Electronic keyless lock
- Spring or cam keyed locks
