

Hiring: Mohs Surgery Histotechnologist

Job Description:

Atlanta Dermatology and Laser Surgery is looking for a skilled Mohs surgery histology technician with ACMS/ASMS-approved training and Mohs surgery experience to support Dr. Ben Kelly's expanding Mohs practice. Dr. Kelly sees Mohs cases 3 days/week; the opening can be part-time for Mohs surgery support only, or full time with medical assistant responsibilities on non-Mohs surgery days. We offer a strong compensation package including health insurance and retirement benefits.

Job Responsibilities:

- Process, embed, cut and stain tissue specimens so a quality microscopic slide can be produced for diagnosis by our Mohs surgeon
- Maintain laboratory equipment and daily cleanliness of the lab area
- Maintain certification for Clinical Laboratory Improvement Amendments (CLIA)
- Operate and maintain cryostat and other laboratory equipment properly
- Prepare and maintain stains and other solutions required in staining procedures
- Maintain quality control logs and patient identification log
- Perform related work as required by the Practice

Job Requirements:

- Mohs surgery histotech training certification
- Mohs surgery histotech experience.

Practice Description:

Dr. Jerry Cooper and Atlanta Dermatology and Laser Surgery have been an Atlanta institution for almost 50 years. Dr. Cooper, Dr. Tunisia Cornelius and Dr. Ben Kelly, together with our three licensed laser practitioners, physician assistants and exceptional staff, provide a broad range of medical and cosmetic dermatology services in an attractive, state of the art facility.

Ours is a collegial, family business-like workplace, not a corporate environment. We honor old school values focused on connecting with our patients and giving them the best possible care. At the same time, we practice cutting edge medicine and we encourage new ideas and opportunities to grow.
