for other custom profile variations.

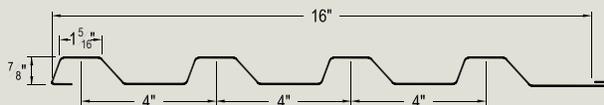

The Expression Series concealed fastener wall panel is available with two fastening options. The above option is with a panel flange for fastening directly to the structure. The below option is with a panel clip to accommodate panel thermal expansion with longer lengths. Panel modules can be combined to add unique and interesting aesthetic appeal along with horizontal, vertical or diagonal installation orientation. Various metals, colors, and gauges are available along with factory mitered corners, closure system, splice plates, and custom fabricated flashing packages.
