# Fully Functional COTS F-16 Training Devices

- Training for multiple variants: Blocks 15/30/MLU/50-52+
- The most advanced, interactive training for F-16 aircrew featuring high fidelity simulation
- Delivers Self-Paced training with a personalized real-time Virtual Instructor (VI) feedback
- Fully scalable across the hardware spectrum
- Lessons guided by Intelligent Tutor
- High fidelity flight model
- Proven track record with the USAF and other air forces worldwide
- Cost-effective, affordable price and available NOW!

## SIMbox Powered

- Advanced weather, threats, malfunctions capabilities
- Integrated SCORM 2004 LMS, LCMS & TMS
- Track pilots performance in a centralized solution
- Integrated Intelligent tutor for personal & immediate feedback
- Supports Distributed Mission Operation including radio/intercom functionalities
- Advanced Playback/After Action Review (AAR) capabilities
- Supports persistent world solution
- Open architecture, Extensible, Modular, Flexible, easily integrates to existing solutions
- Standardized: Supports IEEE, SCORM 2004, HLA & Open Flight
- SIMbox Toolkit to support in-house or third party adaptations
