United States Senate  
Washington, D.C. 20510

Dear Senator:

On behalf of the 500,000 members of the Laborers' International Union of North America (LIUNA), I urge you to support S. 4897, the 2020 American Nuclear Infrastructure Act. Across the country, LIUNA has thousands of employees who construct and maintain these energy facilities.

Nuclear energy infrastructure is essential in meeting both our nation's domestic energy production and proposed climate change goals. It has been made clear that as we move away from fossil fuels, we must expand our nuclear energy output in order to meet consumer demand.

This legislation passed the Senate Environmental Public Works Committee with strong bipartisan support, 16-5. Despite the need to grow our nuclear energy sector, several current nuclear reactors are struggling to stay operating. S. 4897 will help these facilities stay online, continuing their reliable, steady supply of energy while reducing carbon emissions.

Once brought to the senate floor for a vote, I urge you to support S. 4897.

With kind regards, I am

Sincerely yours,

**TERRY O'SULLIVAN**  
General President
