	Arrow of Light		Yellow

2. Put the arrowhead flat on the table with the cock feather up.
3. Lay out your stripes according to your numbers and colors in the chart above — Where you start and spacing is up to you!
4. Peel the backing off your first stripe.
5. Grab the ends of the stripe with your thumbs and pointer fingers.
6. Lay the middle of the stripe across the arrow shaft.
7. Press down one end of the stripe then the other.
8. Repeat with the next stripe until they are all applied.

(2016-17 update: Using the new awards system? Use the old white activity pin stripes after the Webelos stripe (7+) and the Arrow of Light stripe (7+) for the 7 required rank adventures + additional adventures)
