

The Concrete Industry's Only **MODULAR CHILLER**

ALL other chiller brands in the concrete industry buy and resell commercial-grade chillers with minor modifications. Don't let a coat of paint fool you. ChillBatch is the only chiller brand BUILT for the concrete industry.

**ALL
2021
NEW**

Cost to provide 8°F (4.4°C)
reduction in final mix temperature

ChillBatch Chiller
using 35°F batchwater \$0.25

Ice
(not including
labor cost) \$5.00

Liquid Nitrogen
(not including damage
to equipment) \$8.00

- + **EXPANDABLE** Add and remove chiller modules to control your cooling capacity
- + **DURABLE** Cool well water and poor-quality water without freezing or clogging
- + **UNBEATABLE** The only chiller capable of producing 32.5°F (1.7°C) batchwater
- + **SERVICEABLE** Service or replace individual chiller modules with minimal or no downtime
- + **AVAILABLE** Chiller modules kept in stock to eliminate long lead times
- + **MOBILE** Chiller modules are easily moved for cooling when and where you need it most
- + **ALWAYS CONNECTED** Every chiller includes one year of wireless, 24-hour, internet monitoring by AmGeo service staff
