VINYASA FLOW YOGA

Join a liberating yoga class that explores the delicate connection between breath and movement. In this class we begin each sequence gently with a basic/beginner asana then intermediate options are offered for those students who require it in order for all to reach the same benefit. The class then flows easily with each student at his/her level. Towards the end of the class there's a breathing exercise followed by deep rest and a short Yoga Nidra. The results are a heightened awareness of the senses and a reduction of physical, mental, and emotional stress." (Instructor: Kelly Yoder)
