Product Description

Commander VHF base Station Antennas incorporate the design features of 9 MHz broadband capability, improved lightning protection and true omnidirectional gain in excess of 5 dBd
 Note: Below 150 MHz, rated gain is 4.8 dBd due to length constraints. Side mounting hardware is available for the 620 to achieve special radiation patterns.

Features/Benefits

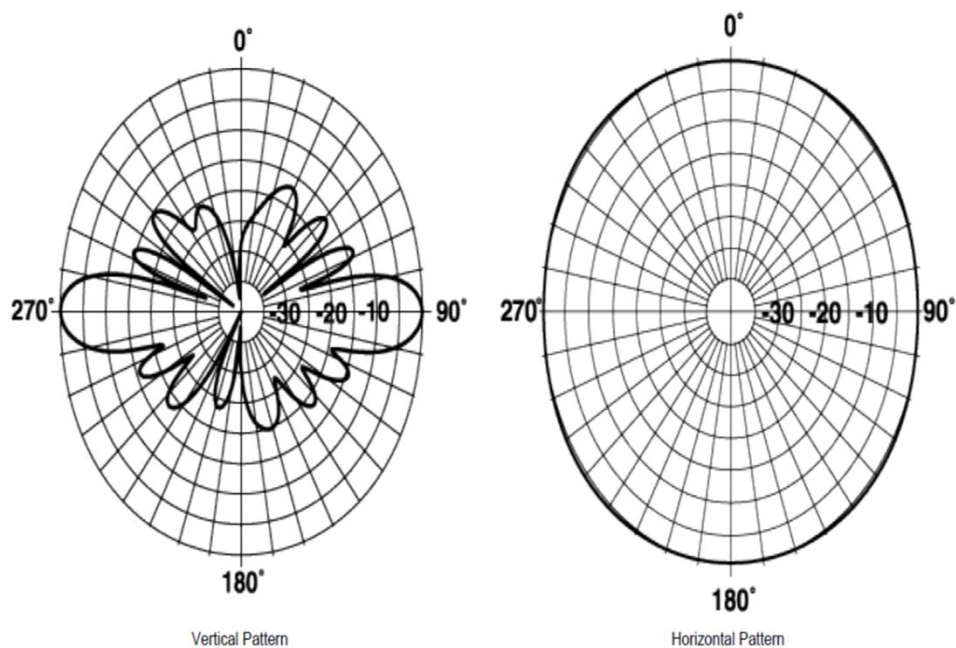

Fiberglass construction protects radiating elements in corrosive environments. DC grounded - affords lightning protection
 Copper radiating elements minimize possibility of intermod generation
