### **Engage Behavioral Health Opens New Clinic in Tallahassee**

*Company becomes the only ABA provider in the area to offer services  
in clinic, homes and schools*

TALLAHASSEE, Fla. (June 16, 2014) — Growing its capabilities and becoming the only Applied Behavior Analysis (ABA) provider in Tallahassee to offer services in an office as well as in clients' homes and schools, Engage Behavioral Health is proud to announce the opening of its new clinic at 1725 Capital Circle NE, Unit 302, in Tallahassee.

Engage has been providing ABA therapy services in Tallahassee for children with autism, Asperger's syndrome, obsessive-compulsive disorder, attention deficit hyperactivity disorder, anxiety disorders and other behavioral issues in clients' homes and schools since August 2012.

"The decision to open a clinic was driven by the desire to offer our families another option that may better fit their needs," said Mary Kate Lettera, Engage's Area Director for Tallahassee. "Sometimes, a clinic may offer a more controlled environment than a home or school, where some of our kids may be easily distracted by siblings or classmates. Also, it can be more convenient for some parents to drop their kids off at the clinic so they can run errands during the appointment."

The new clinic space is 1,300 square feet and includes four designated therapy rooms, a playroom/gym, an administrative office and a reception area.

The clinic is designed as a Natural Environment Training space, offering children the chance to explore and interact with stimulating toys and novel activities. The therapy rooms each have different themed decorations and activities. For example, the "My Home" room includes a play kitchen, shopping cart and a broom to help teach daily living skills.

Engage currently provides ABA therapy services in three pre-schools and elementary schools in Tallahassee. Engage's therapists shadow clients and integrate ABA techniques to help students maximize their learning potential.

Engage Behavioral Health, which has experienced rapid growth in the past two years, is based out of Tampa, Fla.

"We are very proud to expand our footprint in Tallahassee and help even more children and families," said Jennifer Rava, Engage's CEO and owner. "Mary Kate has done an exceptional job spearheading our efforts in the Panhandle and we look forward to growing our presence throughout the state."

#### **About Engage Behavioral Health:**

Engage Behavioral Health offers unique Applied Behavior Analysis and Applied Verbal Behavior services to those with developmental disabilities. We work with clients in our clinics, and in their homes and schools. Founded in 2008, Engage Behavioral Health's offers a variety of ABA therapy, diagnostic evaluations and psychotherapy services.
