

Engineering Recruiting and Staffing Specialists

Today there is an unprecedented need for individuals with engineering and technical skills. In order to meet your goals and stay ahead of the competition, you need the right people in place. Where can you find the best engineers, drafters, designers, and technical writers? **Professional Management Enterprises** has the resources to locate skilled engineers and technical personnel staff who are ready to work where and when you need them.

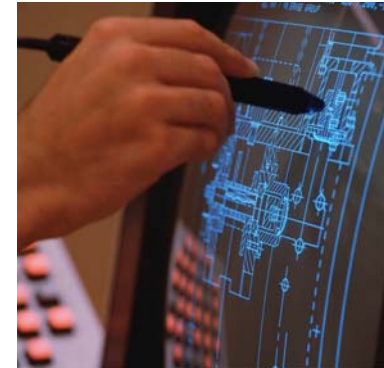

Looking for qualified people ready to hit the ground running? **PME's** extensive recruiting, screening, and testing process means we can find you the right person for almost any engineering job. We have an extensive pool of qualified candidates ready to go to work where and when you need them.

Professional Management Enterprises, Inc. is not an engineering company. We do not provide engineering services directly. We specialize in locating and placing qualified engineers who are seeking employment with clients who are seeking their skills.

Who We Recruit
