Every Sunday, Catholics (like many other and Christians) stand to profess their faith in the God who created “all things visible and invisible.” How often do we *really* think about these unseen creatures who are always ready to help us? In 10 well-researched lessons presented on DVD, authors Mike Aquilina and Fr. Mitch Pacwa draw on Scripture, the saints and the Catechism to remind us of the precious gift God has given us in the good angels. You will also find that learning about the angels helps you discover more about the God who created them!

Discover that angels are spiritual, personal and immortal creatures, with intelligence and freewill, who glorify God without ceasing and serve him as special messengers of his saving plan!
