

2019 NOVEL CORONAVIRUS

(2019-nCoV)

An estimated

80%

of **ALL** infections are transmitted by hands

CDC, 2014²

Hand washing can reduce the risk of respiratory infections by

21%

NIH, 2008⁵

97%

of people **don't** wash their hands adequately

USDA, 2018⁴

Wash hands frequently with soap and water or use alcohol-based hand sanitizer.

WHO, 2020¹

Avoid close contact with anyone with cold or flu-like symptoms.

WHO, 2020³

Consult with local health authorities on all necessary procedures and up-to-date information.

Reduce your risk of coronavirus infection:

Clean hands with soap and water or alcohol-based hand rub

Cover nose and mouth when coughing and sneezing with tissue or flexed elbow

Avoid close contact with anyone with cold or flu-like symptoms

Thoroughly cook meat and eggs

No unprotected contact with live wild or farm animals

World Health Organization

MINIMIZE THE RISK

- Follow all public health recommendations and guidelines
- Wash hands frequently with soap and water
- Use an alcohol-based hand rub
- Clean and disinfect surfaces and high-touch objects with approved disinfectants
- Ensure availability and proper training of personal protective equipment (PPE)
- Minimize close contact with persons who have symptoms of respiratory illness
