2019 NOVEL CORONAVIRUS
(2019-nCoV)

An estimated 80% of ALL infections are transmitted by hands
CDC, 2014

Hand washing can reduce the risk of respiratory infections by 21%
NIH, 2008

97% of people don’t wash their hands adequately
USDA, 2018

Wash hands frequently with soap and water or use alcohol-based hand sanitizer.
WHO, 2020

Avoid close contact with anyone with cold or flu-like symptoms.
WHO, 2020

Consult with local health authorities on all necessary procedures and up-to-date information.

MINIMIZE THE RISK

• Follow all public health recommendations and guidelines
• Wash hands frequently with soap and water
• Use an alcohol-based hand rub
• Clean and disinfect surfaces and high-touch objects with approved disinfectants
• Ensure availability and proper training of personal protective equipment (PPE)
• Minimize close contact with persons who have symptoms of respiratory illness

Reduce your risk of coronavirus infection:

Clean hands with soap and water or alcohol-based hand rub

Cover nose and mouth when coughing and sneezing with tissue or flexed elbow

Avoid close contact with anyone with cold or flu-like symptoms

Thoroughly cook meat and eggs

No unprotected contact with live wild or farm animals
