

## OUR PRODUCTS

—URNS—

We offer both Standard Urns and Specialty Urns in a variety of shapes, sizes, and styles. We are also able to engrave most of our urns to personalize your special relationship with your beloved pet.

## EQUINE SERVICES

With the completion of our new facility, we proudly added complete services for the Equestrian community. We are the first full-service equine facility in Southern California providing whole horse cremation. This means one call assures the peace of mind of knowing that your loved companion's cremation will be handled exclusively by us, with compassion, dignity and respect throughout the entire process.

We offer both small and large animal cremation services to the greater metropolitan areas of Southern California from Los Angeles to San Diego.

## CLAY PAW PRINTS

Paw Prints are special tokens of all the memories you have of your pet. By personalizing your pet's paw prints after we create an imprint of them, you can capture all the memorable moments you've experienced with your pet.

"Thank you for your compassionate care of our precious Chloe...as well as your sensitivity to our grief over our loss. We so appreciate your availability, thorough concern with details, and willingness to accommodate our desires...and thank you for the Angel paws book that has helped us begin to process our heartache."

ONLY CREMATIONS  
FOR PETS

## ABOUT US

Veterinary and family owned, Only Cremations for Pets has been Southern California's premier pet cremation facility since 1996. We offer a full range of services from general communal cremation to personalized private services in our exclusive Private Viewing Room.

Our caring, compassionate staff is here to help you through this difficult time as you say good-bye to your loyal companion and best friend. We will be with you in your sorrow and grief when your beloved pet has passed away and will provide you with comfort and peace of mind while ensuring your pet is given a loving memorial.

Our State of the Art Cremation Facility in Newport Beach

At Only Cremations for Pets, our aim is to provide you with a dignified and proper farewell to your beloved pet.

We believe our pets are as much a part of the family as any human, deserving of the same equal, loving treatment.

## OUR SERVICES

### — PRIVATE SERVICES —

When a pet is privately cremated, each pet is separated and cremated in their own individual compartment ensuring that it is only your pet that will be returned to you in a special urn of your choice. Every urn comes with an Alder Wood Keepsake Heart engraved with your pet's name on it.

### — GROUP SERVICES —

Pets are cremated alongside other pets without individual containers. We give Group Cremations the same professional care and attention as we do our Private Cremations. These cremated remains are not returned to the pet owners and are scattered at sea by Tides to Tranquility and Ocean Defenders.

## PRIVATE VIEWING

### — MEMORIAL SERVICES —

Our facility has a warm and welcoming viewing room where loved ones can come to memorialize their beloved pet. Beautifully decorated walls displaying a vibrant animal mural, this room can accommodate your private viewing needs. We can help you tailor your memorial to be the most comforting for you – display a photo collage, play soothing music, or recite a beautiful reading. If you have any special needs for your beloved pet such as laying them to rest with a favorite toy, collar or blanket please ask us. Our memorial services are the perfect way to give your recently departed friend a final tribute for all the love and companionship they've provided over the years.

## PET LOSS SUPPORT

We have several resources to help you with your loss, including articles and other sources of support for the bereaving pet owner.
