

Adam Merran
CEO GROUP
PACKNWOOD

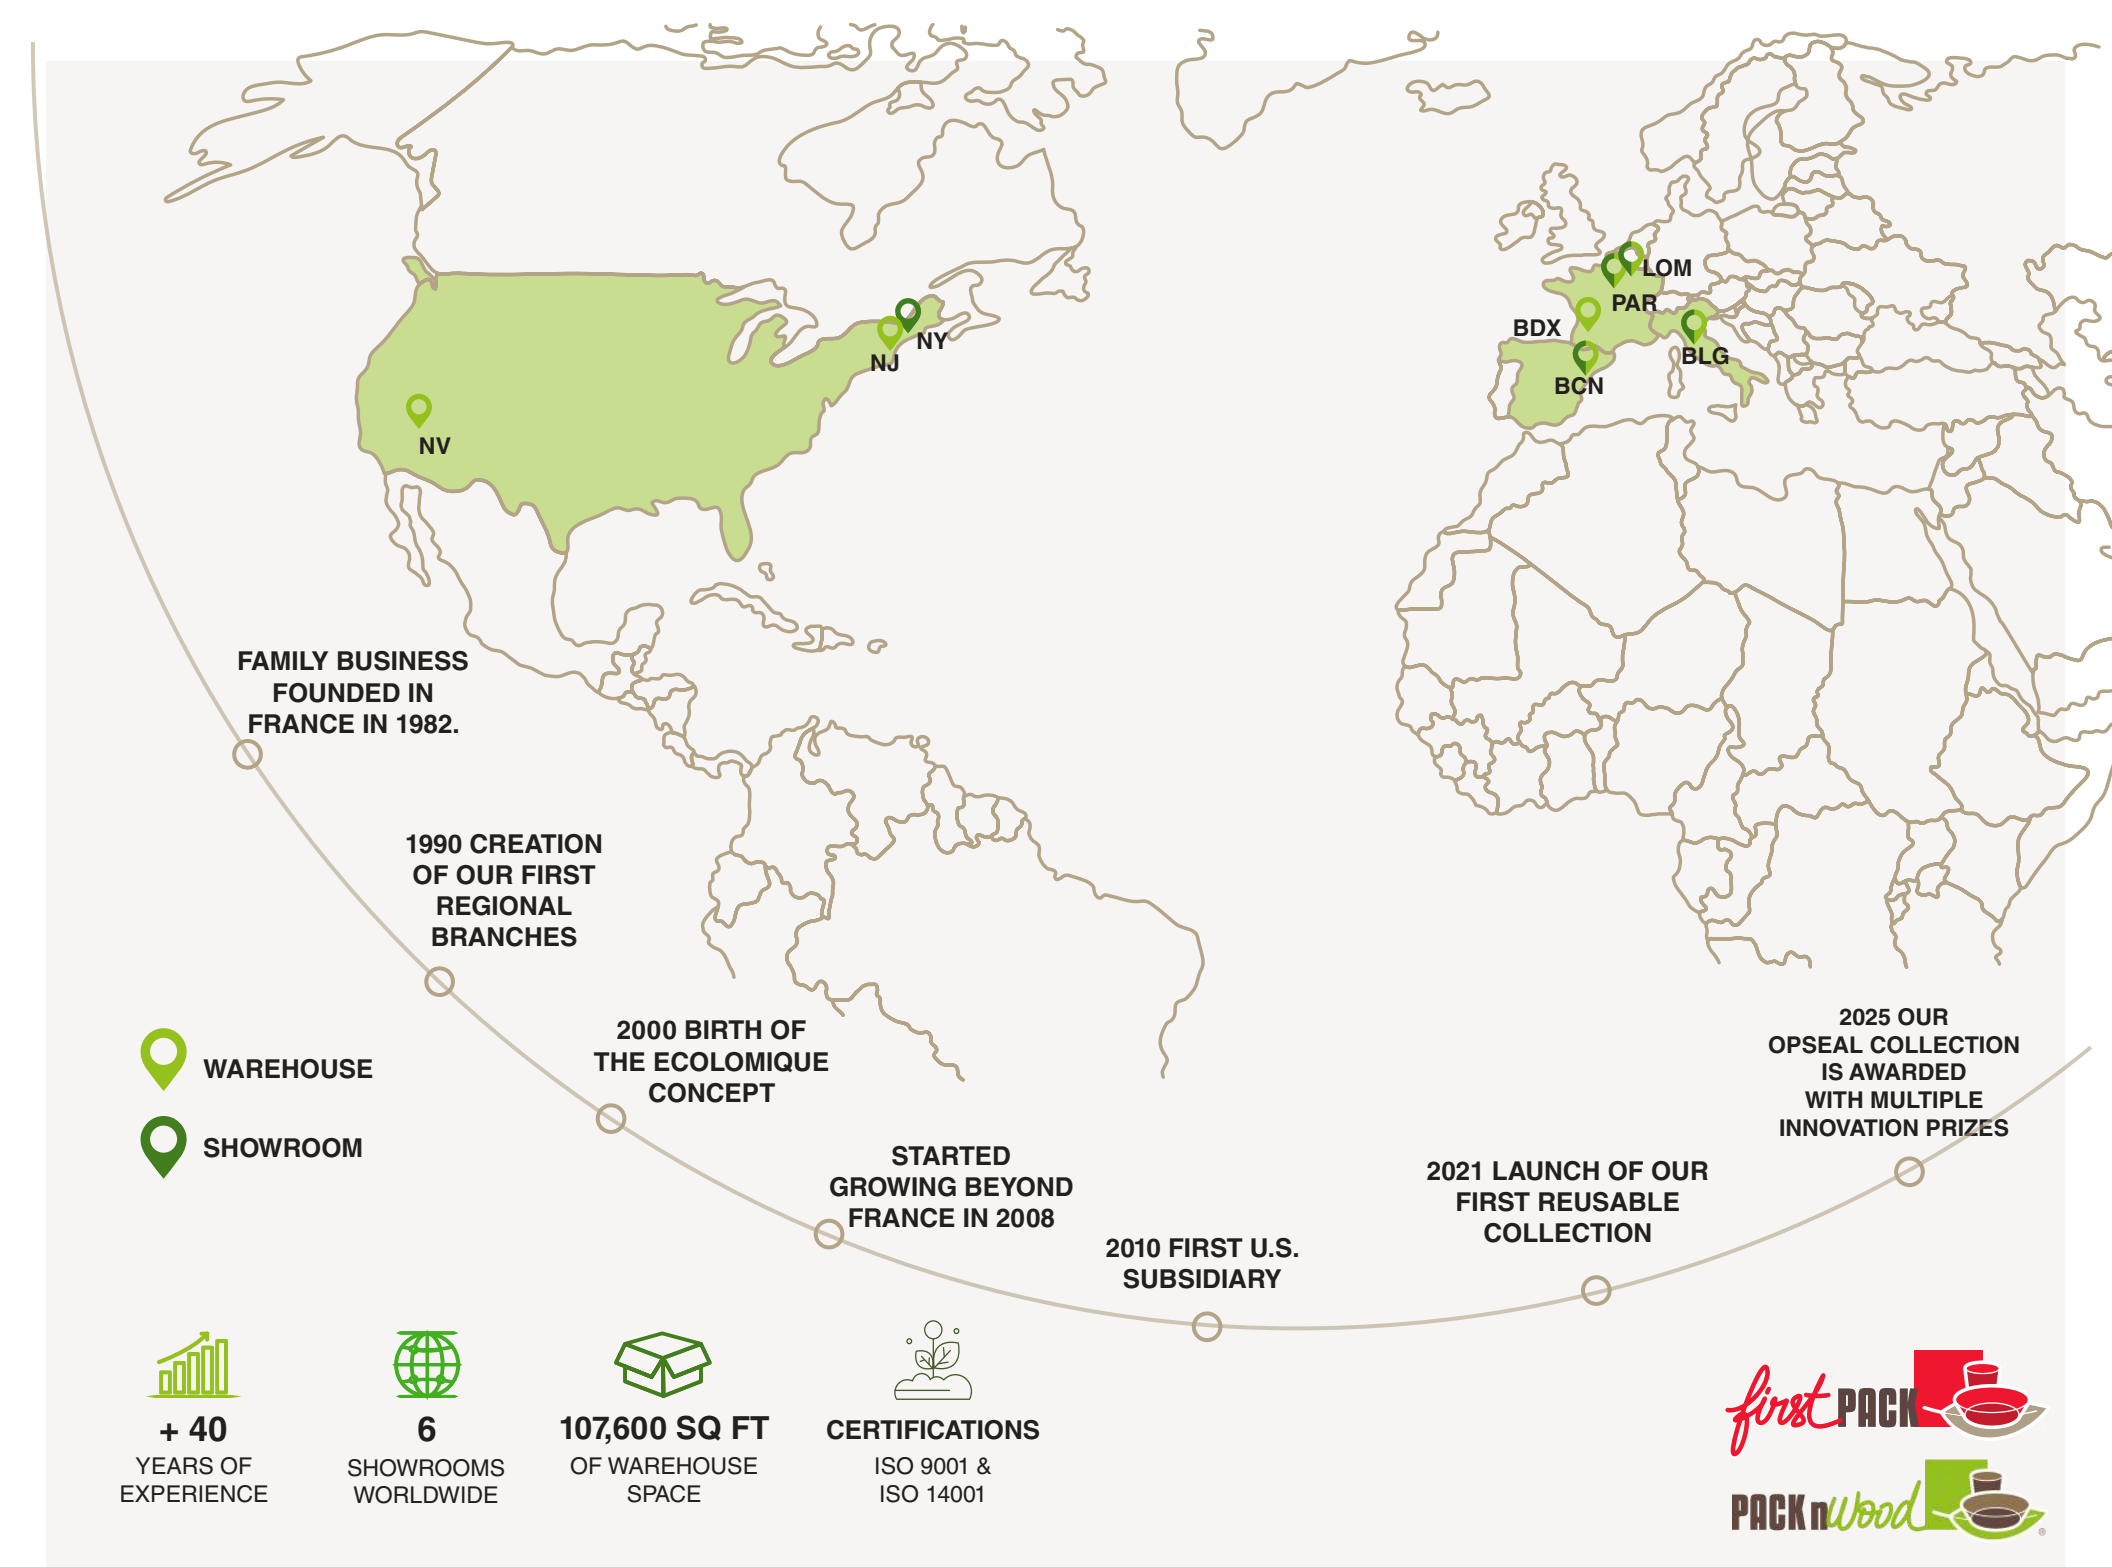

Dear partners,

Our industry is going through a major transformation, with new regulations, rising social expectations, and increasing operational demands. In the face of these challenges, we remain guided by one strong belief, innovation should never be a barrier, it should be a driver that helps us move forward together toward more sustainable foodservice.

This 2026 catalogue reflects that commitment. Inside, you will discover major innovations, starting with our Phoenix range, designed to push the limits of reuse, and our new generation of OPSEAL® machines, developed to improve performance while reducing environmental impact. Our product catalog designed with sustainability in mind, helping reduce environmental impact while delivering an excellent user experience.

Our goal remains clear, to support you with practical, reliable, and planet friendly solutions, without compromising on convenience or design. In these pages, you will find answers to tomorrow's challenges, products tested in real conditions, strict compliance with standards, and constant attention to your day to day needs.

In 2026, we continue to believe that the packaging of tomorrow must serve both the planet and performance. Thank you for your continued trust, and we hope you enjoy discovering this new edition.

Our CSR commitment, a long standing and concrete approach

At Packwood, social and environmental responsibility is not just a marketing message, it has been part of our DNA for over 30 years.

As pioneers, we created the Écolomique concept in the 1990s, combining ecology and economics, and have always worked to bring together economic performance, environmental responsibility, and positive social impact.

Our environmental certifications and initiatives

- **ISO 14001**, our environmental management system is certified and audited regularly
- **Carbon footprint assessment**, completed in 2023, it guides our emissions reduction actions
- **Eco responsible infrastructure**, LED relamping completed, motion sensors installed, roof renovation to maximize natural light, these initiatives have significantly reduced our electricity consumption.

Products designed for tomorrow

- **Natural materials**, we offer a wide range of products made from renewable materials such as wood, bamboo, sugarcane pulp, and palm leaf, durable, biodegradable, and compostable resources
- **Phoenix range**, a major innovation with products made from 90% recycled materials and fully reusable, combining circular economy principles with durability
- **Eco design**, material reduction, integration of recycled materials, standardized formats, removal of individual plastics, direct printing to reduce labels, every detail matters
- **The Opseal@** machine and our reusable containers are transforming food packaging by reducing waste at the source

Our social commitments

- **Ongoing training**, our teams are trained on ISO 14001 standards, as well as best practices for sorting, and saving energy and water
- **Health and safety at work**, we ensure the health and safety of our employees and partners at every stage of the value chain

Our social impact

- **Community support**, we regularly donate products to organizations fighting food insecurity
- **Local commitment**, we support social vocation initiatives and organizations in the areas where we operate
- **Equality and diversity**, we promote diversity and equal opportunity across our teams, convinced that human richness is a core strength of our company
- **Dialogue and transparency**, we maintain trusted relationships with our stakeholders, employees, clients, and partners, to move forward together toward a more responsible economy.

THE ESSENTIALS GUIDE

Mexican Flavors

Huskly reusable wrap cups [page 81](#)

OUR LATEST INNOVATIONS

Made to Move. Ready to Serve.

Built for speed, convenience, and versatility, our grab and go selection brings together a wide range of single-use packaging solutions designed to support fast-paced foodservice. From street food favorites to everyday fast food essentials, this chapter covers multiple formats adapted to different menus, portions, and service styles.

Why it matters:

A broad choice of formats makes it easier to match packaging to different food types, from snacks and street food to full meal solutions. Designed for fast service, these products help simplify packing, handling, and takeaway operations during busy periods. Practical, single-use solutions help keep food easy to carry, easy to serve, and more convenient for customers on the move.

Best suited for: street food vendors, fast food concepts, takeaway counters, cafés, food halls, delivery-focused businesses, convenience retail, and any food operation looking for practical single-use packaging for service on the go.

A bio based product is made from renewable, biologically sourced raw materials, meaning it comes from biomass. This can include plants, animals, fungi, and bacteria.

Unlike products made from fossil based resources, bio based products are considered a more sustainable, environmentally friendly alternative.

Designed to Last. Made to Impress.

Reusable tableware offers a practical way to combine durability, presentation, and long-term value across a wide range of foodservice environments. More than an alternative to single use, it brings a more elevated and intentional feel to service, helping operators create a better customer experience while relying on products designed for repeated use. Whether for dine-in concepts, hospitality settings, corporate dining, or premium events, this selection supports a more polished table.

Why it matters:

Reusable tableware helps create a more elevated dining experience, with pieces that feel more substantial, refined, and suited to service where presentation matters. Durable materials support repeated use, making them a practical option for operators looking for reliable solutions that perform over time.

It also offers a smart balance between function and long-term value, especially for businesses that want tableware designed to be used again and again.

Best suited for: dine-in restaurants, hotels, corporate dining, catering operations, event venues, office foodservice, and any business looking to combine durability and presentation.

REUSABLE TABLEWARE

Enamely Collection

Durable, hygienic, and stylish, our enamel tableware is ideal for intensive use in foodservice. Resistant to impacts, scratches, and high temperatures, it combines the look of traditional tableware with long-lasting performance, even in busy service environments.

Its vintage look enhances your tabletop presentation, indoors or on the patio.

Please note, not microwave safe due to its metallic composition.

REUSABLE TABLEWARE

Naturally Styled. Professionally Served.

Natural tableware offers a simple way to create a more refined and distinctive presentation, while keeping service practical and efficient. With materials such as bamboo leaf, sugarcane, cardboard, and wood, this selection brings texture, warmth, and character to the table, helping food stand out in a more natural and elevated way. Well suited to settings where presentation matters just as much as functionality, these solutions make it easier to build attractive buffet displays, create cohesive catering setups, and serve with a finish that feels thoughtful, polished, and consistent.

Why it matters:

Natural textures and finishes help enhance the visual appeal of the food and create a more elevated overall presentation.

Lightweight and practical formats make setup, service, and replacement easier during busy events and high-volume moments.

A cohesive material palette helps create more harmonious buffet layouts and better-looking catered presentations across different dishes and serving formats.

Best suited for: caterers, buffet service, event professionals, hotels, premium takeaway concepts, and any food business looking to combine natural presentation with practical service solutions.

Set the Table. Shape the Experience.

From quick service to more elevated dining moments, our tabletop essentials are designed to bring together practicality, presentation, and flexibility. This section covers everything from single-use cutlery to reusable options, with solutions adapted to different service styles and customer expectations. Discover materials such as coffee ground, wood, and PLA, alongside durable reusable ranges in stainless steel and recycled plastic. From individually packed cutlery and complete kits to single-use napkins and our refined cotton range, every essential is here to help create a more complete and cohesive table setting.

Why it matters:

Cover every tabletop need with a versatile selection designed for takeaway, dine-in, delivery, and catering. Choose from single-use and reusable solutions to match your service model, presentation goals, and operational needs. Create a more polished customer experience with coordinated essentials that combine function, comfort, and style.

Best suited for: fast casual and QSR operators, cafés, caterers, hotels, office dining, event professionals, takeaway concepts, and any food business looking for practical and well-presented tabletop solutions.

Tabletop / Cotton napkin

Premium cotton napkins, the elegance of fabric with the convenience of disposable tableware.

Our high-end 100% cotton napkins offer the authentic look and feel of cloth, with the flexibility of a disposable or reusable solution. Washable and reusable multiple times, they create a polished, premium presentation for professionals who do not compromise on quality.

Sold flat and ready to use, not on a roll, they are quick and easy to set out, with no pre-cutting or tearing required.

Key benefits:

- Premium textile look and feel, with a soft touch and refined finish
- Best-in-class hygiene, use once or wash and reuse
- Versatile, ideal for hotels, cocktail bars, coffee shops, and upscale dining
- Available in multiple formats, cocktail, lunch, and dinner
- Durable, performs well even during wet or extended service
- Customizable, add your logo to reinforce your brand presence
- An ideal solution combining elegance, practicality, and flexibility, without compromising on quality

- » Easy to wash and reuse
 - » Polished look
 - » High absorbency

Serve Responsibly. Stand Out Naturally.

Every cup and straw you hand out is a brand statement. Our range gives foodservice operators a complete, sustainable drinks packaging solution — from hot drink and coffee cups to festival paper cups, compostable straws (coffee ground, wheat, reed and bamboo), juice bottles and drink carriers.

Why it matters:

Stay ahead of single-use plastic regulation. Meet growing customer demand for visible sustainability credentials. Elevate the full drink experience — hot, cold and on-the-go — under one consistent, certified range.

Best suited for: coffee shops & cafés, festival and event operators, juice bars, hotels & corporate catering, QSRs and fast casual.

Bake. Pack. Present.

From preparation to takeaway, our bakery and pastry essentials are designed to support every step of service with practical, versatile packaging solutions. This section brings together everything needed to bake, present, protect, and carry sweet or savory creations with ease. From our standout wooden baking molds and wooden baking boxes to takeaway boxes, bags, and paper molds, each solution is made to combine functionality, presentation, and convenience for professionals who need packaging that works as well as it looks.

Why it matters:

Cover every stage of service with versatile essentials for baking, packing, displaying, and takeaway. Create a more refined presentation with packaging designed to showcase pastries, cakes, breads, and baked specialties. Rely on practical solutions that help protect products, simplify handling, and support a smooth customer experience.

Best suited for: bakeries, pastry shops, cafés, tea rooms, caterers, hotels, grab-and-go counters, gift concepts, and any food business looking for reliable, presentation-led bakery packaging.

Cocktail & Events

Elegant Service. Responsible Choice.

Designed for receptions, cocktail parties and refined events, our range delivers elegant, practical solutions built for both mobile and fixed service — from passed hors d'oeuvres to full banquet buffets. Mini containers, premium presentation accessories and sustainable materials, everything you need to showcase your creations and leave a lasting impression.

Why it matters:

Impress clients with premium, sustainable presentation that matches the occasion. Reduce single-use plastic across high-volume events without compromising on look or function. Simplify procurement with one trusted range covering every service format and event size.

Best suited for: professional caterers, restaurants & hotels hosting private events, wedding & banquet venues, convention & conference centers, country clubs, corporate event planners, museums & cultural institutions, amusement parks & zoos, botanical gardens, tasting events, pop-up shops, grocery demos & tradeshow.

Bags & Trays

Carry More. Compromise Nothing.

From kraft paper takeaway bags to reusable cotton totes, isothermal carriers and premium burlap for an elevated unboxing moment — our transport range covers every need, every operator, every occasion. Practical and strong for high-volume counter service, refined and distinctive for meal kits, gift boxes and picnic concepts. Disposable or reusable, functional or luxurious, every option is designed to ensure food travels well and your brand arrives with it.

Why it matters:

Protect food quality in transit with reliable, fit-for-purpose carriers across temperature needs; Elevate the customer experience from counter to doorstep with packaging that reflects your brand; Offer sustainable, reusable alternatives that reduce waste without sacrificing presentation.

Best suited for: fast casual & QSR operators, steakhouses & fine dining takeaway, meal delivery & meal kit services, grocery stores & farm shops, spas & resort dining, gift & hamper concepts, picnic box experiences, pop-up stores & farmers markets.

One Machine. Endless Potential.

From sauce cups and individual portions to larger sharing formats, our sealing solution is designed to work across a wide variety of containers, regardless of material. Paired with customizable paper or aluminum lids, it helps operators combine product protection, efficiency, and brand visibility in one streamlined solution. Ideal for takeaway, delivery, retail display, and prepared foods, this machine creates a secure, professional seal that supports food quality while giving every package a cleaner, more finished look.

Why it matters:

Seal multiple container formats with one flexible machine, making it easier to adapt across menus, portions, and service styles. Use customizable paper or aluminum lids to strengthen presentation and bring branding directly onto the packaging. Protect food in transit with a secure, reliable seal that helps maintain quality and gives customers a more professional experience.

Best suited for: fast casual and QSR operators, takeaway and delivery concepts, caterers, supermarkets and deli counters, meal prep services, salad and poke concepts, dessert businesses, and any food operation looking for a versatile sealing solution with added branding potential.

Why choose this model?

- » Automatic sealing, cutting, and film rewinding, up to 300 containers per hour
- » Fits 7.28 in diameters and works with most materials, cardboard, sugarcane fiber, PET, PP, stainless steel, and more
- » Uses kraft or clear PET film rolls
- » Warranty, service support, spare parts, and financing options available

OPSEAL REVOLUTIONIZES TAKEOUT

Seal your containers in seconds.

-  **The only lids that are 100% leakproof**
-  **The most cost effective on the market**
-  **Easy to customize**
-  **Eco friendly, uses less material and generates less waste compared with traditional lids**

Maximum security.

Once sealed, the meal stays intact until it reaches the customer. No opening is possible without leaving clear evidence.

Easy to use, it lets you seal over 400 containers per hour, from small 2 oz sauce cups to large 170 oz formats. A real time saver, a more professional look, and a practical everyday solution.

-  **KRAFT SEALING LID**
-  **WHITE PAPER SEALING LID**
-  **ALUMINUM SEALING LID**

OUR COMMITMENT: EXCEPTIONAL MATERIALS

Cotton:

A soft, durable natural fiber, cotton is a favorite for reusable bags and packaging. Built to last, it's a practical, eco-friendly choice, ideal for replacing single-use plastic bags with an elegant, textile feel.

Jute fabric:

Raw, authentic, and 100% plant-based, jute stands out for its natural look and strength. It's especially well suited for bags, pouches, and packaging that combine a rustic style with an environmentally responsible approach.

Recyclable PET:

PET (polyethylene terephthalate) is a lightweight, clear, durable plastic widely used for food containers. Its recyclable option supports more responsible waste management by making sorting easier and keeping materials in circulation.

Sugarcane fiber:

A byproduct of sugarcane, bagasse is a plant-based fiber that's a strong alternative to traditional plastics. Biodegradable and compostable, it's ideal for single-use food containers with a lower carbon footprint.

Cornstarch (PLA/CPLA):

Made from renewable resources, cornstarch is transformed into bioplastic (PLA or CPLA) that's industrially compostable. Available in clear or opaque options depending on use, it offers a bio-based alternative to conventional plastics.

Wood:

A natural, sturdy, warm material, wood is used for cutlery, trays, and foodservice accessories. It adds a beautiful finish while being renewable and biodegradable.

Porcelain:

Elegant and long lasting, porcelain is a fine ceramic that's ideal for reusable tableware. Resistant to thermal shock, it combines a premium look with reliable performance over time.

Stainless steel:

Durable, hygienic, and 100% recyclable, stainless steel is a trusted choice for reusable food containers and accessories. It delivers long-term performance and easy everyday maintenance.

Aluminum:

Lightweight and durable, aluminum provides an effective barrier against air, moisture, and grease. Perfect for cooking and storing food, it's 100% recyclable, endlessly.

Bamboo:

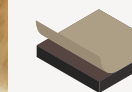

Lightweight, sturdy, and naturally antibacterial, bamboo grows quickly without fertilizers or pesticides. A more eco-friendly choice for cutlery, plates, and cups, for single use or reusable applications.

Cardboard:

Versatile and recyclable, cardboard is widely used for food packaging. It can be uncoated or coated depending on your needs, and stands out for its low environmental impact.

Paper:

Flexible, recyclable, and biodegradable, paper is a simple, effective solution for lightweight packaging. It can be printed, laminated, or treated depending on the application.

Co-Polyester:

A next generation plastic, co-polyester is BPA free, shatter resistant, and crystal clear. Ideal for premium reusable containers that combine safety with a modern design.

Plant fiber composites and PP plastic:

Blending nature and performance, plant fiber composites use natural fibers to reduce plastic use. Recyclable, durable PP (polypropylene) completes the solution, delivering strength and lightweight performance for long lasting foodservice use.

Coffee Grounds:

A distinctive recycled material with a natural look and feel, coffee grounds are ideal for reusable tableware and serving pieces. Durable and visually unique, they bring warmth, character, and a more eco-responsible touch to food presentation.

Wood Fiber:

A natural and versatile material, wood fiber is well suited for reusable tableware and food service items. Lightweight yet durable, it offers a warm, organic appearance that brings a natural and elevated touch to everyday presentation.

Reed:

A natural material with a refined organic finish, reed is ideal for serving and presentation pieces. Lightweight and elegant, it adds texture, authenticity, and a naturally elevated feel to any table setting.

UNDERSTAND OUR ICONS

LFGB
A certification that confirms the product complies with the strictest food safety standards. It ensures there are no harmful substances and that the material is safe for food contact.

BPA Free
Indicates the product is made without Bisphenol A, a controversial chemical. This label supports safer use, especially for food packaging, by reducing potential health risks.

BRCGS
An international certification that confirms products meet the strictest standards for food safety, quality, and traceability, ensuring a reliable, controlled supply chain.

PEFC (Programme for the Endorsement of Forest Certification)
This label guarantees sustainable forest management, respect for local communities, and strict traceability of materials.

FSC (Forest Stewardship Council)
This label guarantees that the wood and paper used come from responsibly managed forests that meet strict environmental, social, and economic standards.

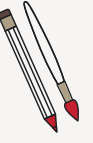

BPI (Biodegradable Products Institute)
This certification confirms the product is biodegradable and compostable in industrial conditions, helping reduce environmental impact at end of life.

DISCOVER OUR CUSTOMIZATION SERVICE

STRENGTHEN YOUR BRAND IDENTITY WITH CUSTOM PACKAGING SOLUTIONS

- » **Stand out from the competition:** make a lasting impression with a unique, recognizable design
- » **Create a memorable customer experience:** elevate the overall perception of your service and build loyalty
- » **Upgrade your takeout and delivery offering:** give a premium, professional look from the first glance
- » **Keep your branding consistent:** align your packaging, menus, and digital materials
- » **Boost your visibility:** turn every sale into mobile advertising for your brand
- » **Highlight your commitments:** clearly communicate your values, sustainability, local sourcing, craftsmanship, and more
- » **Increase perceived value:** premium packaging elevates the perceived quality of your products
- » **Make items easy to identify:** ideal for events or wholesale orders
- » **Generate social buzz:** encourage shares on social media with standout packaging

CHOOSE YOUR PRODUCT

Choose your product and customize it with colors, logos, and more. Need help? We offer mockups or can use your design.

WE MAKE IT CUSTOM

We bring your ideas to life by creating high-quality, custom-made products tailored to your brand and vision.

GROW SUSTAINABLY

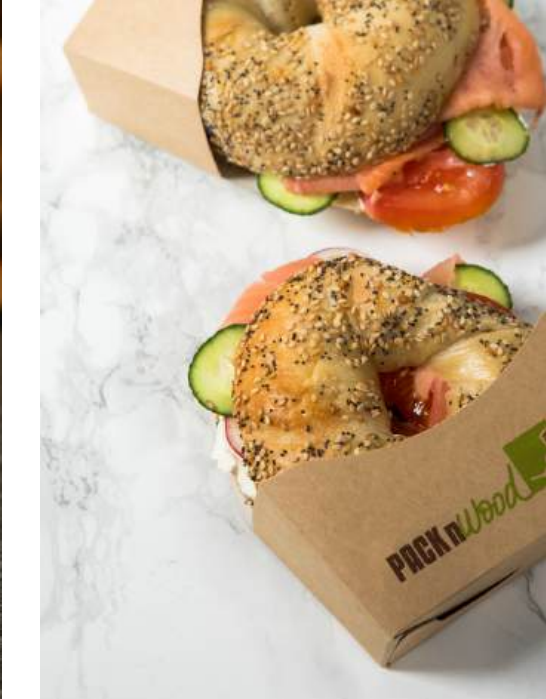

Your brand is thriving with smart savings and full eco-responsibility—proof that sustainability and success go hand in hand.

PLACE YOUR ORDER

Place your order with our minimum qty. Pay your deposit. Lead time will take 16-20 Weeks

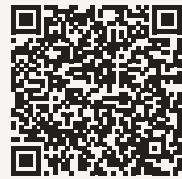

WE SHIP YOUR ORDER

Once your order is finalized, your products will be shipped to your preferred location with tracking provided for peace of mind.
