

Mike Shepherd
Director, APNT Strategy

In his current role, Mike leads Assured Position Navigation & Timing Strategy & Systems for the Navigation and Sensor Systems business at BAE Systems. In this position he is responsible to lead the 5-to-10-year Assured PNT systems of systems vision for NSS. NSS is the Industry leader for Military GPS across all domains-weapons, ground-(mounted & dismounted), airborne (manned and unmanned) and maritime. Under Mike's leadership, BAE is growing the systems of systems business for APNT.

Mike is a seasoned 20+ year veteran of the DOD Industry Business Development community with 10 years at General Electric representing their CBRNE product line, 15 years at Collins Aerospace (formerly Rockwell Collins) in the Military Communication & Navigation businesses. He joined BAE Systems in 2023. He received his Bachelor's in education from Temple University and his Master's in Education from Southwestern University. Mike lives on a mountain (25 yrs.) in Colorado with his wife, Deborah of 40 years. He is as avid outdoorsman and enjoys hunting, golfing, NASCAR, College Wrestling and being Papa Mike to his 4 grandchildren.
