

FEATURES AND BENEFITS

Easy to Operate

User friendly control panel that feels intuitive to operate, even with gloved or wet fingers. No mechanical knobs or dials to break off. The Vision™ Touch combi features MyVision– a customizable display panel that provides everything you need on the main menu and is easier to use than your smartphone.

Triple-Pane, Cool to the Touch, Curved Glass Door

The Vision™ combi doors are made standard with three separate layers of glass for the best insulation possible and a 2-step safety handle which helps prevent accidental burns from steam when opening the door. The curved glass exterior provides visual access from anywhere in the kitchen.

Active Humidity Control

Active humidity control precisely measures and regulates the steam in the cooking chamber and creates the ideal environment for superb results.

Boiler-less Steam Injection System

Our system maximizes energy and water efficiency. The Vision™ combi features our advanced steam injection system with a built-in heat exchanger to preheat incoming water, and a reversing air dispersal fan to perfect steam cooking results and lower water costs.

BUILT TO LAST!

304 Stainless Steel exterior and interior cavity. Special surface treatment on interior chamber offers significant protection from dirt and undesirable substances. Special thick insulation around cooking chamber ensures rapid heat up and recovery, while minimizing energy usage and helping to keep kitchen cooler.

Active Cleaning System

Easy to use, automatic cleaning system featuring 5 cleaning levels that using highly effective, low-cost chemicals for a sparkling clean that will take the hard work out of cleaning your combi at the end of the day.

Automatic Cool-Down

Initiated whenever a cleaning cycle is started. Other ovens require the operator to open the door and cool down manually.

Automatic Capacity Manager

A self regulating feature that senses the load and temperature drop, and accommodates by starting the cook cycle once the correct oven temperature is reached.

Easy to Access Service Panel & Advanced Diagnostics

Front hinged service panel provides quick and easy access. Enables quick unit check up, troubleshooting, and HACCP records.

Lifetime Service and Support

Available 7 days a week, from 7AM to 7PM EST, to help our customers resolve any issues that might arise in the shortest time possible.
