

FAST TRACK TRAINING

REWARDS SYSTEM HELPS DOGS LEARN FASTER

Full Life For Dogs Trainer's Choice Rewards offer a great way to reward dogs, for more effective training results. Reinforcing your pet with Trainer's Choice Rewards will help her learn quicker and better.

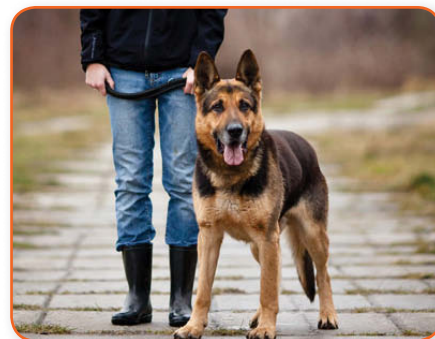

Focus & Attention:

Training in different places, such as outdoors, might have more distractions than just in the home. Full Life Trainer's Choice Rewards are available in mouth-watering chicken and bacon flavors with meat as their number one ingredient. Their irresistible scent will grab the attention and help maintain the focus of your dog.

Low Calorie:

Repetition helps dogs learn in a faster amount of time. With only 1 ½ calories per treat, Full Life Trainer's Choice can be given over and over again as reinforcement without causing weight gain or fullness.

Convenience:

With Full Life Trainer's Choice, you can reward your dog on the go. We use the slow-cooked method to cook our treats in order to lock-in moisture so the treats won't crumble. They can be taken anywhere, in anything, even a pocket!

Treats for Everydog:

Full Life Trainer's Choice Rewards are ideal for everydog. With two delectable flavors, bacon and chicken, and such a low calorie count per treat, they're right for big, small – and even very fussy – dogs.

Treat your dog to a "Full Life"

Results:

By rewarding your dog with Full Life Trainer's Choice, you will see results. With such an enticing reward awaiting, your dog will "want" to learn commands and behave properly. This means, dogs will be trained in less time!
