

“The Broadleaf Specialists”

For over fifty five years, the Chesapeake name has been synonymous with top quality broadleaf evergreens. We now encompass over 1300 acres on Maryland's Eastern Shore. Approximately two-thirds of this acreage is used for the production of high quality ornamental shrubs. We currently grow over 150 varieties of Azaleas, Barberry, Boxwood, Hydrangea, Ilex, Nandina, Ornamental Grasses, Pieris, and many more in various sizes suitable for garden centers, landscape contractors, and redistribution centers.

The sales office, propagation department, and Pemberton farm are located three miles west of Salisbury on Pemberton Drive. Loading and shipping facilities, the repair and fabrication shop, and the Green Hill farm are 11 miles west of Salisbury on MD Route 352.

The nursery was started in 1962 with the first propagation in one unheated, deep cold frame. Our “nursery’s nursery” now consists of more than 50,000 square feet of heated space including a $\frac{3}{4}$ acre Cravo retractable roof greenhouse - the first one of its kind on the east coast. Over 600,000 liners are produced each year. Most liners start as softwood cuttings planted in pine bark and rooted under intermittent mist.

Chesapeake’s container operation started in the mid-80’s and is now producing over 800,000 plants per year in 3 to 20 gallon plastic pots. We are currently growing in 1200 300’ hoop houses. We primarily use bark as our growing media and fertilize with dry granular slow release fertilizers. Much emphasis is placed on growing full, dense, healthy, top quality plants. Tremendous time, effort, and resources go into production techniques, over wintering, shipping, and customer service. Plants are pruned many times during their production to develop well branched,

properly shaped, full tops. Six key managers individually label plants by shipment with strict adherence to uniform grading. No plants are pulled in advance; each plant is selected just prior to loading.

In the pulling operations, all plants are placed on 4' x 6' pallets to eliminate additional lifting and handling. Currently 25 semi-trailers and two straight trucks are used to send out over 800 loads per year to markets in the Northeast and Midwest. All of our delivery vehicles are decked to ensure plants arrive to you in excellent condition. No plant material is double-stacked. We are currently loading as many as 15 loads per day with three crews using four docks with conveyors.

Over the last 10 years we have converted all of our Ilex, Euonymus and Boxwood from field production to container production. This has

been a monumental task. We have constructed over 700 300' x 18' hoop houses, two large wet well systems with four 75-horsepower, 2000 gallon per-minute, vertical turbine pumps each, increased our water holding capacity by 30% and moved countless yards of earth for grading and road building.

What does all this mean to you the customer? It means more consistency, the container plants are grown in a more controlled environment and the crop is more uniform from beginning to end and year to year. Better winter protection means your early spring shipments are ready when you are. Container grown plants are much easier for you and your customers to handle and maintain in your yards.

The conversion to container growing has not allowed us to expand our product mix. Our next project is to construct an additional 100 houses to be able to add several new product lines to our mix to broaden your choices for quality plant material and increase the quantities of our existing production. If you haven't been to the nursery in the last couple of years you can't imagine how much we've accomplished. We welcome the opportunity to show you around.

AZALEA APHRODITE

Soft pink single flower. Glenn Dale, superior foliage. Midseason. Large growing, but good spreading habit
Mature height: **4 feet**
Mature spread: **5 feet**
Zones: **6-10**
Grown in: **#3 pot**

AZALEA BLAAWS PINK

Good, hardy salmon pink Kurume. Hose-in-Hose. Midseason. Medium grower.
Mature height: **4 feet**
Mature spread: **3-4 feet**
Zones: **6-9**
Grown in: **#3 pot**

AZALEA DELAWARE VALLEY WHITE

Large, pure white Kurume, very hardy. The most popular white Azalea. Large grower.
Mature height: **3-4 feet**
Mature spread: **4-5 feet**
Zones: **5-8**
Grown in: **#3 pot**

AZALEA GIRARD CHRISTINA

Dense evergreen shrub with large, glossy green foliage. Late spring bloomer with double-red blooms.
Mature height: **3-4 feet**
Mature spread: **4-5 feet**
Zones: **5-8**
Grown in: **#3 pot**

AZALEA GUMPO PINK

Outstanding dwarf Satsuki with large pink flowers. Late. Low grower.
Mature height: **2½-3 feet**
Mature spread: **3-3½ feet**
Zones: **6-9**
Grown in: **#3 pot**

AZALEA GUMPO WHITE

Outstanding dwarf Satsuki with large white flowers. Late. Low grower.
Mature height: **3 feet**
Mature spread: **4 feet**
Zones: **6-9**
Grown in: **#3 pot**

AZALEA HERBERT

Very hardy semi-double purple Gable. Medium grower.
Mature height: **3-4 feet**
Mature spread: **4-5 feet**
Zones: **5-9**
Grown in: **#3 pot**

AZALEA HERSHEY RED

Double red blooms in mid spring. Dark green leaves and has been known to be used as a short, flowering hedge.
Mature height: **4-6 feet**
Mature spread: **4-6 feet**
Grown in: **#3 Pot**

AZALEA HINOCRIMSON

Bright red Kurume, regaining popularity because of good dependable flowers and foliage. Early. Compact to 3'.

Mature height: **3-4 feet**

Mature spread: **4-5 feet**

Zones: **5-9**

Grown in: **#3 pot**

AZALEA JOHANNA

Densely branched shrub with dark green foliage that goes burgundy in fall. Deep red, ruffled blooms emerge in mid spring.

Mature height: **4 feet**

Mature spread: **4 feet**

Zones: **6-8**

Grown in: **#3 pots**

AZALEA KAEMPO

Excellent dwarf variety with silvery pink flowers late in season. Cross of Kaempferi and Gumpo.

Mature height: **2 feet**

Mature spread: **3 feet**

Zones: **5-8**

Grown in: **#3 pot**

AZALEA KAREN

Early single purple. Hardy. Large grower. Mature height: **3-4 feet**
Mature spread: **4-5 feet**

Zones: **4-9**

Grown in: **#3 pot**

AZALEA MACRANTHA

Salmon red Indicum, late flowering, dwarf variety. Low grower.

Mature height: **3 feet**

Mature spread: **3 feet**

Zones: **7-10**

Grown in: **#3 pot**

AZALEA MICHAEL HILL

Another excellent low, dwarf ground cover hybrid from Polly Hill's Vineyard Haven, MA garden. Late flowering pink.

Mature height: **2 feet**

Mature spread: **5 feet**

Zones: **6-8**

Grown in: **#3 pot**

AZALEA PLEASANT WHITE

Girard hybrid. Hardy, late. Compact spreader.

Outstanding foliage.

Mature height: **2-3 feet**

Mature spread: **3 feet**

Zones: **5-8**

Grown in: **#3 pot**

AZALEA RENEE MICHELLE

Beautiful large pink flowers late in season. Low growth habit. Hardy.

One of Girard's best.

Mature height: **3 feet**

Mature spread: **5 feet**

Zones: **5-8**

Grown in: **#3 pot**

AZALEA STEWARTSONIAN
Orange-red Gable hybrid of extreme hardiness. Early. Tough. Vigorous. Mature height: **5-6 feet** Mature spread: **4-5 feet** Zones: **5-8**
Grown in: **#3 pot**

AZALEA TRADITION

The most popular early pink with excellent flower and foliage. Compact. Hardy. Medium grower. Mature height: **3-4 feet** Mature spread: **4-5 feet** Zones: **6-9**
Grown in: **#3 pot**

BARBERRY CRIMSON PYGMY

Dwarf form with mature size of 2' height, 3' spread. Small crimson leaves. Mature height: **2 feet** Mature spread: **3 feet** Zones: **4**
Grown in: **#3 pot**

BARBERRY ROSE GLOW

New foliage is variegated pink, turning red in the fall. Mature height: **5 feet** Mature spread: **4 feet** Zones: **4-8**

Grown in: **#3 pot**

BARBERRY ROYAL BURGUNDY

Low grower. Deep burgundy foliage. Very

compact. Mature height: **2 feet** Mature spread: **3 feet** Zones: **4-8**
Grown in: **#3 pot**

BOXWOOD GREEN MOUND

Great sub for English boxwood. Very cold hardy. Spherical habit and slow growing. Mature height: **2-3 feet** Mature spread: **2-3 feet** Zones: **5-8**

Grown in: **#10 pot**

BOXWOOD GREEN MOUNTAIN

Most upright of this group of hybrids. Small dark green leaves, excellent for hedging. Mature height: **5 feet** Mature spread: **3 feet** Zones: **5-9**
Grown in: **#10 pot**

BOXWOOD GREEN VELVET

Slow grower. Small dark green leaves. Mature height: **4 feet** Mature spread: **4 feet** Zones: **5-9**
Grown in: **#5 pot**

BOXWOOD WINTER GEM

Dark green, oval-shaped leaves with a small dense compact growing habit. Excellent plant for hedges or individual specimen.

Mature height:

4-6 feet

Mature spread:

4-6 feet

Zones: 5-9

Grown in: **#3,
#5, & #10
pots**

CHAMAECYPARIS GOLD MOPS

Medium grower.
Mounded form.
Bright yellow
feathery growth.
Mature height:
3-4 feet
Mature spread:
4-5 feet
Zones: 4-8
Grown in: **#3
pot**

CUPRESSOCYPARIS LEYLANDII

Fast growing
pyramidal with
blue-green
foliage. Excellent
for screening.
Mature height:
40 feet
Mature spread:
15 feet
Zones: 5-10
Grown in: **#7,
#15, & #20
pots**

EUONYMOUS MANHATTAN

A hybrid with excellent glossy, dark green foliage. Forms a rounded high shrub.

Mature height: **6 feet**

Mature spread: **5 feet**

Zones: 5-8

Grown in: **#10 pots**

GRASS CALAMOGROTIS KARL FORESTER

Deep green, lustrous
foliage. Clump forming and
strictly upright. Buff
colored vertical plumes in
late summer. Grows to 6'.

Mature height: **Foliage to 2
feet, flower stalks to 6 feet**

Mature spread: **2 feet**

Zones: 4-9

Grown in: **#3 pot**

GRASS MISCANTHUS ADIAGO

Improved Maiden
Grass. Stays at a
slightly shorter
height. Tan 5' blooms
in August.

Mature height: **5 feet**

Mature spread: **3 feet**

Zones: 5-9

Grown in: **#3 Pot**

GRASS MISCANTHUS GRACILLIMUS

Narrow dark green foliage to 6' tall. Copper red blooms in late September. Mature height: **6 feet** Mature spread: **4-5 feet** Zones: **5-9** Grown in: **#3 Pot**

GRASS MISCANTHUS MORNING LIGHT

Grows to 4', narrow dark green foliage, streaked with white. Reddish blooms in early September. Mature height: **4 feet** Mature spread: **2 feet** Zones: **5-9** Grown in: **#3 Pot**

GRASS PANICUM NORTHWIND

Tall ornamental switch grass with great vertical form. Finely textured yellow flower panicles develop around July and last into winter turning more to beige. Mature height: **4-6 feet** Mature spread: **2-3 feet** Zones: **5-9** Grown in: **#3 Pot**

GRASS PANICUM SHENANDOAH

Compact growing switch grass that has bluish green foliage emerge turning to burgundy-red very quickly. Develops finely textured reddish-pink flower panicles that become beige into the winter. Mature height: **3-4 feet** Mature spread: **3-4 feet** Zones: **5-9** Grown in: **#3 Pot**

GRASS PENNISETUM HAMELIN

Good compact grower to 2' high. Creamy white spikes in July. Mature height: **2-3 feet** Mature spread: **1-2 feet** Zones: **5-9** Grown in: **#3 Pot**

GRASS SACCHARUM RAVENNEA

Nearly identical for Pampas grass. Matures at 10'. Rapid grower. Mature height: **9 feet** Mature spread: **3 feet** Zones: **5-9** Grown in: **#5 Pot**

HEMEROCALLIS STELLA D'ORO

Golden yellow blooms that repeat thru the summer.

Very dwarf.

Mature height:

Foliage up to 12 inches and flower stalks to 2.5 feet

Mature spread: **12 inches**

Zones: **3-10**

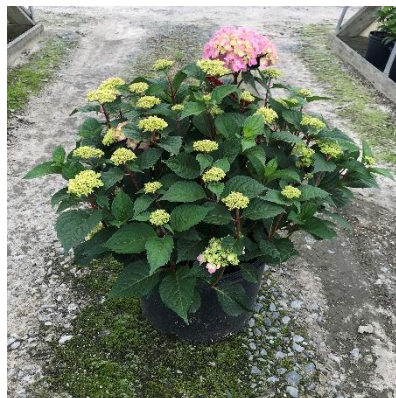

Grown in: **#1 pot**

HYD. ENDLESS SUMMER® BLOOMSTRUCK® PP25566

This variety has good heat tolerance and disease resistance.

Blooms in late spring thru fall with rose-pink to purple flower heads depend on the pH of the soil. It also has

beautifully strong red-purple stems.

Mature height: **3-4 feet**

Mature spread: **4-5 feet**

Zones: **4-9**

Grown in: **#5 pot**

HYD. ENDLESS SUMMER® BLUSHING BRIDE® PP17169

Re-bloomer like the Endless Summer, but with white blooms that will fade to blush or pale blue depending on pH of soil. Mop-head blooms against dark green foliage.

Mature height: **4-5 feet**

Mature spread: **4-5 feet**

Zones: **5-9**

Grown in: **#5 pot**

HYD. ENDLESS SUMMER® THE ORIGINAL® PP15298

Hardy, repeat bloomer on both old and new wood.

Showy flower mops with pink to blue blooms. Mature size 3'-5'.

Mature height: **5 feet**

Mature spread: **5 feet**

Zones: **4-9**

Grown in: **#5 pot**

HYD. ENDLESS SUMMER® TWIST-N-SHOUT® PP20176

Another compact form, only 3-4' tall with closely spaced foliage and white flowers.

Mature height:

3-4 feet

Mature spread:

3-4 feet

Zones: **4-9**

Grown in: **#5 pot**

HYDRANGEA ALL SUMMER BEAUTY

Smaller than Nikko Blue. Profuse bloomer. Flowers range from pink to blue and re-bloom often.

Mature height:

3-5 feet

Mature spread:

3-5 feet

Zones: **5-9**

Grown in: **#5 pot**

HYDRANGEA ANNABELLE

Improved 'Snow Hill' Hydrangea with huge creamy white flower heads. Prefers shade. Mature size 4' to 6'.

Mature height: **3-5 feet**
Mature spread: **4-6 feet**
Zones: **4-9**
Grown in: **#5 pot**

HYDRANGEA GLOWING EMBERS

Bright pink blooms that will not turn blue. Mature size 3' x 3'.

Mature height: **3 feet**
Mature spread: **3 feet**
Zones: **6-9**
Grown in: **#5 pot**

HYDRANGEA NIKKO BLUE

Beautiful globe-shaped blue flowers in acid soils. (Flowers will be pink in alkaline soils.) Nice rounded shape that will grow to 5'. A prolific bloomer.

Mature height: **5 feet**
Mature spread: **5 feet**
Zones: **5-9**
Grown in: **#5 pot**

HYDRANGEA PETIOLARIS

Elegant vine with glossy dark green leaves and profuse lacy white flowers in June. Grown in a 5 gallon can and attached to a trellis. Can climb to 30'+!

Mature height: **30 + feet**
Mature spread: **30 + feet**
Zones: **4-9**
Grown in: **#5 pot**

HYDRANGEA Q. PEE WEE

Compact grower, 3' x 3'. Flowers only 4-5" long. Showy, wine red autumn foliage. Mature height: **3 feet**
Mature spread: **3 feet**
Zones: **5-9**
Grown in: **#5 pot**

HYDRANGEA Q. QUEEN OF HEARTS

Dark green foliage that turns a mahogany red in fall. Large upright inflorescences start with white flowers that slowly turn a deep pink.

Mature height: **6-7 feet**
Mature spread: **9 feet**
Zones: **5-9**
Grown in: **#5 pot**

HYDRANGEA Q. RUBY SLIPPERS

This nicely rounded shrub is dark green in summer and turns mahogany-red in the fall. In early summer it is covered by 9" upright inflorescences that stand up above the foliage. Flowers start off white, but quickly move to pink and eventually rose.

Mature height: **3 feet**
Mature spread: **3 feet**
Zones: **5-9**
Grown in: **#5 pot**

HYDRANGEA Q. SYKES DWARF

Another compact form, only 3-4' tall with closely spaced foliage and white flowers.

Mature height: **3-4 feet**
Mature spread: **3-4 feet**
Zones: **5-9**

Grown in: **#5 pot**

ILEX CRENATA CHESAPEAKE

Beautiful pyramidal variety with deep green color and glossy convex leaves. Grows to a 6-7' height by 4' wide.

Mature height: **6-7 feet**
Mature spread: **4 feet**

Zones: **5-9**
Grown in: **#7, #15, #20 Pots**

ILEX CRENATA EXCELSA SCHWOEBEL

Very hardy pyramidal Jap Holly. Flat leaf.

Grows to 6-8'. Mature height: **6-8 feet**
Mature spread: **4 feet**
Zones: **5**

Grown in: **#7, #15, #20 Pots**

ILEX CRENATA NIGRA

Pyramidal growth habit, 6' x 4'. Slightly larger leaf than Steeds with a dark bluish green cast.

Mature height: **6 feet**
Mature spread: **4 feet**
Zones: 5
Grown in: **#7, #15 Pots**

ILEX CRENATA SKY PENCIL

Slender, upright evergreen shrub. Shears great for a formal look or to use as a vertical accent.

Mature height: **6-8 feet**
Mature spread: **12-18"**
Zones: 5-9

Grown in: **#7 Pots**

ILEX CRENATA STEEDS

Pyramidal growth habit, although narrower than other upright Japanese hollies. Very nice, dark green foliage. Excellent choice for hedge or screen.

8' tall x 4' wide.
Mature height: **8 feet**
Mature spread: **4 feet**
Zones: 5-9
Grown in: **#7, #15 Pots**

ILEX CRENATA COMPACTA

Excellent dark green color. Strong grower, very dense. Can take heavy shearing. Bennett hybrid.

Mature height: **3-4 feet**
Mature spread: **4-5 feet**
Zones: 6-9
Grown in: **#5, #10 Pots**

ILEX CRENATA GREEN LUSTRE

Compact, dark green lustrous foliage.

Mature height: **feet**

Mature spread: **4 feet**
Zones: 5-8

Grown in: **#5, #10 Pots**

4

ILEX CRENATA HELLERI

Dark green, dense, twiggy foliage to 5' tall x 10' wide. Mature

height: **5 feet**
Mature spread: **10 feet**
Zones: 5-8
Grown in: **#5**

ILEX CRENATA HETZI

Large, lustrous convex leaf. Strong grower to 6' tall x 10' wide. Hardy.

Mature height: **6 feet**

Mature spread: **10 feet**

Zones: **5-8**

Grown in: **#5, #10 Pots**

ILEX CRENATA HOOGENDORN

A semi-dwarf holly with a finer textured appearance due to smaller, more elongated leaves.

Mature height: **2 feet**

Mature spread: **3 feet**

Zones: **5-8**

Grown in: **#5 Pots**

ILEX CRENATA HOWARDI

Excellent convex leaf spreading Japanese Holly. More uniform growing habit and better year round foliage color than Ilex convexa.

Mature height: **4-6 feet**

Mature spread: **8 feet**

Zones: **5-8**

Grown in: **#5 Pots**

ILEX CRENATA SCHWOEBEL COMPACTA

We are growing this medium dwarf low spreading Ilex because it is much more hardy than most of the compact Japanese

Hollies. Very dependable. Becoming the landscaper's choice. Similar overall habit to c. Helleri, but much faster

growing. It matures to 4' tall x 8' wide.

Mature height: **4 feet**

Mature spread: **8 feet**

Zones: **5-8**

Grown in: **#5 Pots**

ILEX CRENATA SOFT TOUCH

A Rutgers University introduction. Dense and compact, only reaching 2' x 3'. Dark green, soft textured foliage. Good substitute for c. Helleri.

Mature height: **2-3 feet**

Mature spread: **2-3 feet**

Zones: **5-9**

Grown in: **#5 Pots**

ILEX GLABRA COMPACTA

Extremely hardy Holly. Grows 3-4'. Light shade or sun. Good, compact strain.

Mature height: **4 feet**

Mature spread: **4 feet**

Zones: **4-9**

Grown in: **#10 Pots**

ILEX GLABRA SHAMROCK

Another good selection that has gained acceptance in the trade.

Mature height: **2-4 feet**

Mature spread: **2-4 feet**

Zones: **4-9**

Grown in: **#5 & #10 Pots**

ILEX MERSEVEAE CHINA BOY

Plant Patent 4803.

Male counterpart to 'China Girl'. Matures to 5' x 5'.

Mature height: **5 feet**

Mature spread: **5 feet**

Zones: **5-9**

Grown in: **#5, #15 Pots**

ILEX MERSEVEAE CHINA GIRL

Plant Patent 4878. A beautiful Meserveae hardy hybrid (Cornuta x Rugosa). Rounded compact habit growing to 6-7'.

Attractive glossy green foliage and will take shearing very well. An excellent berry setter.

Mature height: **6-8 feet**

Mature spread: **5-6 feet**

Zones: **5-9**

Grown in: **#5, #10 Pots**

ILEX RED ACADIANA™ PP14418

Deep red new growth and a heavy berry set matched with the tightest branching of the Red Holly group make this an excellent choice as a garden accent or a dense hedge.

Mature height: **14 feet**

Mature width: **8 feet**

Zones: **6-9**

Grown in: **#15 Pots**

ILEX RED OAKLEAF™ PP9487

Large, light green foliage. Tall pyramidal grower, 14' x 8'. Fastest grower of the red hollies.

Mature height: **14 feet**

Mature spread: **8 feet**

Zones: **6-9**

Grown in: **#15 Pots**

LEX RED OAKLAND™ PP14417

Bright green foliage with a distinctive oak-shape.

Upright shape with little need for prune that makes for a great accent or screen.

Mature height: **20'**

Mature width: **15'**

Zones: **6-9**

Grown in: **#15 Pots**

ILEX X NELLIE R. STEVENS

A beautiful pyramidal Holly which is a cross between English and Chinese Holly. Waxy green foliage. Excellent specimen plant or hedge growing to 15-20'.

Mature height: **15-20 feet**

Mature spread: **10 feet**

Zones: **6-9**

Grown in: **#15, #20 Pots**

JUNIPERUS CONFERTA BLUE PACIFIC

Graceful ground cover with blue-green foliage.

Mature height: **12 inches**

Mature spread: **6-7 feet**

Zones: **5-9**

Grown in: **#3 Pot**

LIRIOPE NEW BLUE

Improved variety. Dark green foliage. Lavender flowers.

Mature height: **12-18 inches**

Mature spread: **12 inches**

Zones: **5-10**

Grown in: **#1 Pots**

LIRIOPE VARIEGATA

Green and white striped foliage. Lavender flowers.

Mature height: **15 inches**

Mature spread: **15 inches**

Zones: **5-10**

Grown in: **#1**

NANDINA DOMESTICA

Lacy green foliage that fades to red in autumn. Bright clumps

of red berries in spring. Mature size 4-5'.

Mature height: **5 feet**

Mature spread: **3 feet**

Zones: **6-9**

Grown in: **#7 Pots**

NANDINA DOMESTICA FIREPOWER

Dwarf variety with larger leaves and good fall color. Mature size 2' by 2'.

Mature height: **2 feet**

Mature spread: **2 feet**

Zones: **6-9**

Grown in: **#3 Pots**

NANDINA DOMESTICA GULF STREAM

Dense habit and

foliage. Mature size 3½' high by 3' wide. More vigorous grower than Moon Bay.

Mature height: **3.5 feet**

Mature spread: **3 feet**

Zones: **6-11**

Grown in: **#5 Pots**

NANDINA DOMESTICA HARBOR BELLE

Compact grower that provides color all year. Shades of pink give way

to deep green and burgundy. Small white flowers will yield bright red berries around holiday season.

Mature height: **2 feet**

Mature spread: **2 feet**

Zones: **6-11**

Grown in: **#3 Pots**

NANDINA DOMESTICA HARBOR DWARF

Dwarf, low spreader. Bright orange-red fall color. Sizes listed are graded either height or spread.

Mature height:

18 inches

Mature spread:

2½ feet

Zones: **6-9**

Grown in:

#3 Pots

OSMANTHUS HETEROPHYLLUS GOSHIKI

Japanese for "five colors" the Goshiki has red new foliage that quickly turns green with a mixture of white, grey, and yellow. This selection makes a great accent or hedge.

Mature height: **5 feet**

Mature spread: **4 feet**

Zones: **6-9**

Grown in: **#5 Pots**

OSMANTHUS HETEROPHYLLUS GULFTIDE

Great screen or hedge shrub with spiny, holly-like foliage that is shiny, dark green and very densely held.

Mature height: **8 feet**

Mature spread: **5 feet**

Zones: **7-11**

Grown in: **#7, #15 Pots**

PIERIS JAPONICA SCARLET O'HARA

Tall and slender with red new growth. Hardy.

Mature height: **4-5 feet**

Mature spread: **4-5 feet**

Zones: **5-8**

Grown in: **#5 Pots**

PRUNUS LAUREL SCHIPKAENSIS

Stalks of fragrant white flowers appear in spring against the backdrop of glossy foliage in a vase shape.

Mature height: **4-6 feet**

Mature spread: **6-8 feet**

Zones: **6-9**

Grown in: **#7, #15 Pots**

SPIRAEA GOLD MOUND

Dense, bushy dwarf Spiraea will grow to 2½'.

Bright yellow foliage all season. Clusters of light pink flowers in June and July. Mature height: **2-3 feet**
Mature spread: **4 feet**
Zones: **4-8**

Grown in: **#3 Pots**

SPIRAEA LITTLE PRINCESS

Dwarf mounding variety to 2½' with pink blossoms most of the summer.

Mature height: **3 feet**

Mature spread: **6 feet**

Zones: **4-8**

Grown in: **#3 Pots**

SPIRAEA MAGIC CARPET

A Ground cover variation of Gold Flame.

New red leaf tips sit in front of yellow to gold mature

foliage. Pink Flowers. 10-18" high.

Mature height: **18 inches**

Mature spread: **2 feet**

Zones: **4-9**

Grown in: **#3 Pots**

SPIRAEA NEON FLASH

Like Anthony Waterer. Rich red flowers. Grows to 3'.

Mature height: **3 feet**

Mature spread: **3 feet**

Zones: **4-9**

Grown in: **#3 Pots**

THUJA GREEN GIANT

Fast growing conical evergreen to 60' x 20' with rich green scalelike foliage.

Mature height: **60 feet**

Mature spread: **20 feet**

Zones: **5-9**

Grown in: **#7, #15, #20 Pots**

**VIBURNUM
DENTATUM
CHICAGO LUSTRE**
Glossy dark green
foliage turning reddish-
purple in the fall.
Grows to 10' x 10'.
Mature height: **10 feet**
Mature spread: **10 feet**
Zones: **3-9**
Grown in: **#5 Pots**

VIBURNUM NUDUM WINTERHUR

Lustrous dark green glossy
foliage that matures to wine
red in Autumn. Creamy
white flowers in May give
rise to white-pinkblue fruit
during the end of the
summer. Compact habit to
