FREESTANDING SERIES

Perfect for
hard-to-fit spaces.

valor
FIREPLACES

Why Choose

Feel the heat.

All our gas fireplaces radiate heat. Like feeling the sun on your skin. The best kind of heat there is.

Heater-rated

Our fireplaces are rated with space heaters. We put Radiant Heat Technology into every fire. You can feel it.

Works quietly.

We designed our gas fireplaces to move the heated air via natural convection—no need for a noisy blower.

Stainless Steel burner

Our precision stainless steel burners don't rust, and create an enhanced flame and ember glow that produces radiant heat.

BIRCH MF28VBLK

Efficiency

Valor fireplaces are heater-rated. Our Radiant Zone Heating is up to 25% more efficient than central forced air systems.

A Valor?

Improving heat.

Our exclusive *Secondary Heat Exchanger* and our aerodynamic firebox naturally improve convective heat—without a fan.

Ceramic glass window

Valor's durable and robust ceramic window glass improves radiant performance by absorbing and distributing radiant heat.

No power?

No problem. All Valor gas fireplaces run on 4 AA batteries as the primary source of power—not as back-up power like other brands. And you'll save money on your electrical bill.

Logs provide heat.

High definition, low mass fiber ceramic logs heat up and glow quickly. We harness the radiating heat from our logs, just like real logs.

Built to last.

Our aluminized steel fireboxes handle high temperatures, delivering efficient radiant warmth. Our baked-on powder-coated paint offers a better texture and a more durable finish.

Safety

We put our fires through rigorous safety testing in our in-house CSA approved lab. We provide a screen with every fireplace to keep you and your loved ones safe.

Design your own.

Visit the Valor Fireplace Design Center to design your very own Valor Fireplace today.

**PRESIDENT 530IN
COALS 530CSK
WITH REVERSIBLE RED BRICK/
FLUTED BLACK LINER**

The President stove includes a convenient panel that allows easy access to manual controls and battery.

PRESIDENT STOVE

Crafted with detail and inspired by classic design, the President freestanding stove is perfect for upgrading traditional and contemporary spaces.

Projecting a mere 14.5 inches into the room, the solid cast iron body shows great freestanding as well as tight against a wall—leaving plenty of space.

The classic fuel beds, Traditional Logs and Coal, include a reversible liner with red brick or fluted black—your choice!

The contemporary fire beds—Rocks and Driftwood—feature the Fluted Black liner.

An optional Reflective Glass liner is always a consideration for the President stove.

TRADITIONAL LOGS WITH
REVERSIBLE RED BRICK LINER

ZONE HEATING

With a stove in your main living zones, you can enjoy increased comfort while reducing furnace usage in colder weather or eliminating it during warmer spring and fall months.

Find out more
about our
Remotes:

REMOTE CONTROL

The Valor Plus remote (GV60) is standard with all our stoves for customized control.

Easily select, adjust and program the desired temperature that you want, saving energy and lowering your overall home heating costs.

Turn your pilot light ON and OFF from the handheld remote for years of additional energy savings.

The Valor SmartPilot System automatically shuts down if there's no activity after seven days, reducing unnecessary pilot consumption.
