

# WE BAKE SAFE PROMISE

- + We are doing things in a contactless way and eliminating shared air wherever possible.

**Contactless** means that we are using gloves or tongs to handle your pretzels, providing condiments from behind the counter and encouraging touchless credit card transactions.

**No Shared Air** means team members are wearing masks when necessary, separation screens have been installed where necessary and social distancing is being promoted to customers and team members.

- + We are conducting daily wellness checks with all team members.
- + We are keeping our bakeries disinfected by conducting “sanitation sweeps” every hour as well as sanitizing them every night.
- + We are washing our hands more often than ever and, don’t forget, we cook our pretzels in a 600 degree oven.
