Is your child’s development on track? Kin Care’s Parent Educator offers developmental information and support to all caregivers of infants and young children ages 0-5. Utilizing a specialized curriculum, the Parent Educator can help you understand what to expect during each stage of your child’s development.

As part of this service, we provide the Ages & Stages Questionnaires to help you keep track of your child’s development. A questionnaire will be provided at your request, every 3-6 months. The questionnaire includes questions about your child’s communication, gross motor, fine motor, problem solving and personal-social skills. These questionnaires are completed by doing fun activities that use household items or toys that you already have!

To consult with Kin Care’s Parent Educator please contact your Resource Counselor for a referral today! Or call 951-791-3557 for more information!
