

DURALIFE® COMPLETE GASOLINE FUEL SYSTEM TREATMENT

Duralife® Complete Gasoline Fuel System Treatment contains detergents designed specifically to remove deposits formed in injectors, carburetors, intake valves, combustion chambers and fuel systems of all Fuel Injected, Direct Injected and Carbureted Engines of Gasoline Passenger Cars, Light Trucks and Two-Stroke Air-Cooled/ Water-Cooled Engines of Motorcycles, Marines.

(Equipment coated with gum, varnish, carbon or dirt becomes sticky and inefficient. These deposits can cause high oil consumption, emission rates soar and reducing engine efficiency.)

Fuel detonation is a key factor in fuel burn rates, so this product is also designed to increase the inherent octane rating of a given fuel helping to deliver a more complete burn.

32 fl. oz to treat up to 50 gallons of gasoline.

Add Duralife® Complete Gasoline Fuel System Treatment to the fuel tank before filling with gasoline.

Compatible with All: Unleaded, Oxygenated, E 10, E 85 and Ethanol containing gasoline.

For continued protection and cleaning, use this product at scheduled oil change intervals, but not to exceed twice per oil change.

BENEFITS:

Duralife® Complete Gasoline Fuel System Treatment

- Cleans and lubricates the entire fuel system of any gas vehicle and functions as an excellent upper cylinder lubricant for increased power, performance, acceleration, mileage and maximize fuel economy, improves air flow and minimizes engine friction.
- Restores and protects operation of the fuel gauge sensor.
- Reduces oxidation of fuel even when in contact with bronze fittings in the fuel system.
- Minimizes deposit related knock and ping. Prevents drivability deterioration (rough idling, surging, stalling).
- Is a complete fuel conditioner which will increase the octane of today's fuels by 2 to 5 points, depending on the quality and octane level of the fuel being treated.
- Is safe for turbo-charge engines, oxygen sensors and catalytic converters.
- Ensures maximum life and performance from pumps, injectors and carburetors.

WARNING:

Combustible! Contains petroleum distillates. Use in well ventilated area. Keep out of reach of children and avoid contact with eyes or repeated contact with skin. Harmful if swallowed. Do not discharge used liquid into drains.
