Congratulations! You've just landed a huge account - The International Brotherhood of Circus Performers just agreed to have you host their annual awards ceremonies and training demonstrations. Five days of breakfast workshops, coffee breaks, lunches, snacks and daily dinners capped off with a huge awards banquet. Great job!

Oh - there's just one problem - they are setting up their Big Top on the croquet lawn for the event. Yikes! There is no power there!

And they want you and your staff to all wear "honorary" red noses and floppy shoes during the events.

Sorry! There's no way we can help you with the outfits, but you're in luck with the power requirements...

Lion's Wood Banquet Furniture is proud to present:

## Portable Power Stations

Don't worry - we know - you need power, but we also know how important it is to look good, so we dressed these babies up to conceal big batteries and power inverters, wires and control panels in carts that look just like our furniture!

So easy to operate, hours of power, anywhere. We have created Portable Power Stations to match the Furniture Suites we offer, so they blend right in. Some are free-standing, some are nested inside of other pieces of furniture. All are rechargeable and mobile. The show must go on!

Portable Power Stations from Lion's Wood Banquet Furniture. You can cook up a feast for anybody, anywhere, at any time. What will we think of next?

## Portable Power Stations

*Seaside, Court-side, Inside, Outside  
Power for Hours - Anywhere.*

# Mobility and Freedom

## Rechargeable - Portable - Power

Consistent with our commitment to making you look good while you are being awesome on the job, we offer a variety of Portable Power Stations.

### The Lion's Wood Power Advantage

- Portable Power Stations that are coordinated with our Banquet Furniture Suites. There are Elemental Portable Power Stations, Classic Portable Power Stations, etc.
- Use your Portable Power Station once a day and you will not replace the batteries for over eight years!
- Let us tell you how you can create versatility in your operations even if you don't purchase our induction tables.

### How much do you spend on Canned Fuel?

- If you use 10 cans of fuel per day, at \$1.25 per can, in a year, you will spend **\$4,562.50** on canned fuel.
- If you use 15 cans of fuel per day, at \$1.25 per can, in a year, you will spend **\$6,843.75** on canned fuel.
- If you use 20 cans of fuel per day, at \$1.25 per can, in a year, you will spend **\$9,125.00** on canned fuel.
- If you use 100 cans of fuel per day, at \$1.25 per can, in a year, you will spend **\$46,625.00** on canned fuel.

### Lion's Wood Portable Power Stations

- Designed for mobility and versatility.
- Operate induction warmers, induction cookers, heat lamps, cold-plates, refrigerators, etc.
- The final barrier to true freedom of choice in location has always been the need to locate your set-up within one extension cord length from at least one electrical outlet.

### How the Portable Power Station Works

- Charge the Portable Power Station on standard wall outlet power before or after an event.
- Plug all electrical items directly into the Portable Power Station anywhere, regardless of power availability.
- Use your Portable Power Station for other purposes such as plate display or as a carving station.

## Portable Power Stations

# Battery Performance Chart

Power Cycles

The Portable Power Station includes four rechargeable Lithium-Ion batteries. Here are expectations for typical electrical items you may power with the Portable Power Station.

|  | 2 hr  | 3 hr  | 4 hr  | 5 hr   | 6 hr  | 7 hr  |
|--|---|---|---|--|---|---|
|     |       |       |     |   | N/A   | N/A   |
|   |          |        |       |      |      |    |
|     |         |       |      |     |     |    |
| <div>  Induction COOKER                 </div> <div>  Induction WARMER                 </div> <div>  Heat Lamp                 </div> |   |   |   |  |   |   |

You are a Food and Beverage Professional. Now, please, close your eyes, and imagine - being able to create any table arrangement for any event - at the drop of a hat. Be spontaneous, daring, creative - with the sizes and shapes of the tables, with the table heights, with the accessories. The type of event doesn't matter. You will be ready.

Imagine yourself using a palette of your own design; tables that are rugged, yet so elegant. You sketch out a layout and hand it to your assistants. They quickly gather what you need; carts laden with tabletops in every shape and size, bases in every height and style. No linens to place or clean up, no elaborate strategy to knock it down - it's effortless.

You want to create memorable and innovative events. We want to make your job easy - with a banquet presentation system that makes your events a pleasure for your guests to enjoy and for your staff to produce. It's evolutionary.

It's the Evolution Banquet Presentation System, tabletops and bases that are interchangeable, crafted of materials that are selected for durability and beauty, designed for speed and flexibility.

Now... open your eyes and build your Evolution Banquet Presentation System to your personal specifications.

The wait is over.  
It's time to Evolve.

**## Name**  
Dimensions  
(Qty) Base(s) Required

## Tabletops and Bases

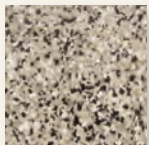

Select the tabletop shapes that work for you and match them up to the bases that work with them. Base requirements are listed beneath each shape. Some shapes may be ordered to accept one of two different bases or ordered to accept both.

## Tabletop Surface Options

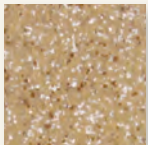

**Fleckstone:** Lion's Wood's Proprietary Tabletop Finish

Brownstone

Granite

Flagstone

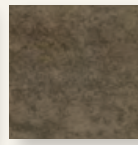

Sandstone

### Fleckstone:

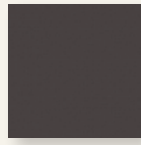

You may choose any of these four colors, or create your own at no additional cost. Simply send an image of the basis of design and our staff will create a color-blend for your approval.

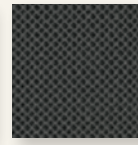

Bianco

Corten Matrix

Pumice

Black Matrix

**LION'S STONE:** Industrial Porcelain Tabletops

**LAMINATE:** The Industry Standard for Tabletops

WilsonArt

Formica

Nevamar

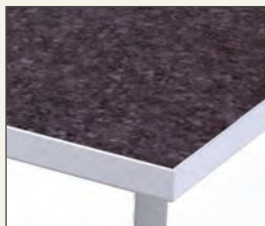

### Plastic Laminate:

You may choose any laminate by these three manufacturers, or you may specify any plastic laminate made, by any manufacturer. Prices may vary.

## Tabletop Edge Style Options

**Self-Edge**  
On Fleckstone Tabletop

**Stainless Steel Edge**  
Available on Lion's Stone and plastic laminate tabletops

**Wood Edge with Bumper**  
Available on Lion's Stone and plastic laminate tabletops

## How The Evolution System Works

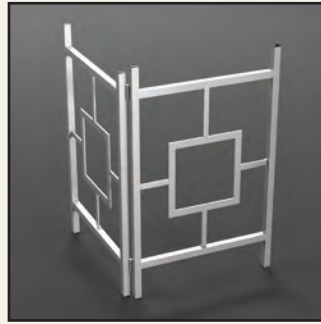

Mix and match different height bases with the tabletops of your choice to create combinations that work together for different functions. Base options for each tabletop shape are listed in the Tabletop Shape section above. Base styles and heights are shown on the next page. Select your bases and tabletops. You store and transport it all on Evolution Carts. We have two sizes of carts to choose from to suit your needs. Select the cart to match the quantity of tables you have and to fit the narrowest door frames on your property.  
(See back page)

# BASE DESIGN

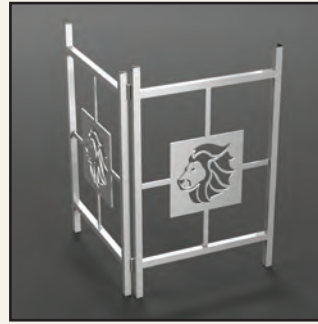

## Base Styles

### Evolution Bases:

Evolution Bases are available in Aluminum with Powder Coat finishes or in #4 Brush Stainless Steel. All Aluminum Bases are fabricated from 11 Gauge 1" x 1.5" Aluminum Tubing. All Stainless Steel Bases are fabricated from 16 Gauge 1" x 1" Stainless Steel.

## Base Heights

Heights shown are tabletop heights

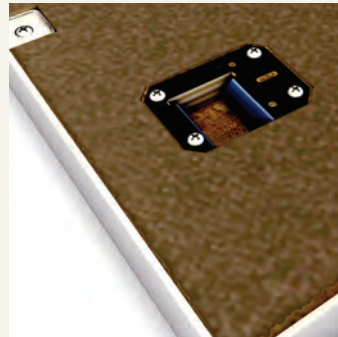

## STORAGE CART

The Evolution Cart for  
Bases & Tabletops

**The Evolution Cart**  
Holds both bases and  
tops. We offer carts  
in two widths, 30" W  
or 36" W, both are 93"  
long . Please check your  
property door sizes  
for clearance before  
ordering.

Underside of an  
Evolution Table with  
Stainless Steel Edge

### The Evolution Clip

Our patented connector clip makes it  
all work. The bases and tabletops are  
assembled to each other every time  
you set them up - and no tools are  
required. Our clip, recessed into the  
tabletop, grips the top of the base,  
and is easily disengaged for storage.

## VERSATILE • DURABLE • PORTABLE

You live in the fast-paced world of the 21st Century. You are an Event Manager for a World-class hotel/convention center and you are called upon every day to do the impossible. You must balance the needs of the client to look their best when they engage your services and the company's need to be efficient and effective, while creating memorable events - and keep an eye on the budget.

Imagine having someone in your corner, making sure that you are able to succeed, every, single, time.

Like magic, you pull that rabbit out of the hat, every day Presto!

You've got the Lion's Wood Presto Banquet Presentation System. Like a good and faithful assistant, we are there to provide you with all the tricks you need to wow the crowds every day.

You want to create memorable and innovative events. We want to make your job easy - with a banquet presentation system that makes your events a pleasure for your guests to enjoy and for your staff to produce.

It's like magic.

We have created the most elementary system of portable tabletops and bases, in the most economical shapes and finishes, that allows you to select a great Lion's Wood System and still maintain control of the budget. Look inside for our secrets to your success!

**Base Finish**  
All bases are made of 16 Gauge #304 Stainless Steel Tubing with Black Plastic Endcaps.

**Edge Detail**  
All tabletops feature a protective vinyl edge.

VERSATILE • DURABLE • PORTABLE • MODULAR

Everyone likes to enjoy a cold drink while attending your events, business and social functions alike, but the events are not always near the bar. Lion's Wood's Portable Bars are the solution. You can bring a fully stocked bar on wheels to the people - wherever they are meeting! Our bars can be outfitted with ice bins, speed-rails, cold wells, even sinks, and we make them to fit any décor, from traditional to contemporary. Use them as simple service bars, at breakout events, outdoors by the pool side, or on the greens. Each bar design has its own companion back-bar, available with or without a hutch, which provides you with more ice, storage and display options. Many of our back-bars feature lighted glass shelving for a stunning glassware display.

In fact, the bar and back-bar form the basis of Lion's Wood's new furniture suites. See our Suites Brochure for a look at the Torus Suite, Classic Suite, Light Suite and others. We enable you to coordinate the look of your event-management furnishings for a seamless guest experience.

33" x 77" x 48"H

### Torus Back Bar Dimensions:

30" x 72" x 78"H

### If You Don't See What You Want...

We are constantly expanding the options that we offer. Please be sure to visit us on the web at: [www.lwbanquetfurniture.com](http://www.lwbanquetfurniture.com) to see the latest.

### The Lion's Wood Advantage: Durability and Modular Construction

At the core of the rectangular bars is a base model bar-chassis constructed of stainless steel. The different model's bar fronts and sides, and the stone bar tops are applied to the steel chassis in a way that makes it easy to repair and replace them in the event of wear and tear, or damage. The part of the bar that is subject to the most wear, and really determines the life-cycle of your investment, is the exterior. The stainless steel chassis is practically indestructible. When the time comes to replace a typical portable bar, a Lion's Wood Portable Bar chassis may be outfitted with a new exterior, which will result in substantial savings. Likewise, if the bar top, bar front, or sides are damaged at any time, no need to throw the whole bar away! We can send you replacement parts, and the facilities department will be able to replace them on site.

## Accessories and Options

### Ice Bins

Insulated Ice Bins with Covers and Drain valves. (Standard)

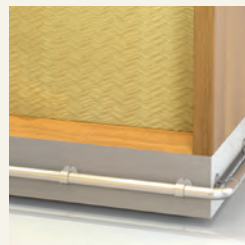

### Speed Rails

In addition to the Standard Speed Rail, we offer Double Deckers and Extra-long models.

### Bar Covers

We provide protective Tencor Gortex Lined Bar Covers for all models with zippers.

### Foot Rails

All Bars are offered with or without Foot Rails, Stainless Steel or Brass.

### Lighting

Back Bars may be equipped with LED Lighting for the Hutch.

Logo Options

Food and Beverage Professionals are responsible for flawless events, and that means making sure that everything goes right, from the keynote address to the awards ceremonies at the end, and every snack and meal in between. Our job is to make your job easier, and to make you look good while we're at it. We provide podiums from the most basic model to the most high-tech event-management center you can imagine, and in styles to match any decor.

Lion's Wood Podium designs are cutting-edge, innovative, and fabricated with high quality components and top-notch craftsmanship. Let us provide you with a fully-functional multi-media control center for your events, that appears on the surface to be a humble, old-fashioned looking podium. Or the Torus podium that provides a more sleek and modern aesthetic.

## Podium Styles:

The **Torus Podium** is a unique expression of design with its curved stainless steel base and lectern, supported by the tapering elliptical column. It is the core product in the Torus Suite, which plays out the tapering ellipse and curves in a bar and back-bar set that complements the Torus Podium's thematic design and the finishes can be tailored to suit your style. Except for Torus, all podiums are square-sided. All podiums may be outfitted with a logo panel of various styles: aluminum panels with custom graphics, or electronic LCD displays, with an interface that allows the speaker to display their company logo, or any other content that they download.

**Skipjack Podium** is the simplest design, on which the other designs are built and may be finished in plastic laminate, wood veneer, or stainless steel. The other designs are available as wood or plastic laminate, with custom panel options as upgrades, including mirror panels and textured laminate panels. All podiums are also available in suites. Please ask your Lion's Wood Sales Rep for a Suites Brochure to see all of the suites options.

The **Light Podium**, and the **Light Suite** as a whole features a textured panel inset, illuminated with LED fixtures for a dramatic presentation.

## VERSATILE • DURABLE • MOBILE

Logos can be added to the podium in black etched onto aluminum panels, or in color as a vinyl graphic.

For the tech-savvy, we offer a front-mounted LCD display that can be used by the speaker to display their own logo or message. All Podiums come with rear casters for ease of movement.

"Did you see those tables with vases on them in the lobby as we passed through?" you asked the new guy as you and your team rushed to set up breakfast in the anteroom.

"Yes I did, sir."

"Good. Take the vases down and put them in the back, and roll three of those tables in here, right away! We're going to need two to keep the eggs and potatoes warm, and one for sausage and gravy for the biscuits."

Your assistant returns with the tables. "Here are the tables you requested, sir, and I looked in the pantry for sterno, but no luck. Does Chef have a plan for this? How can I help? The chafers are sitting right there on the tables, and here we are, sir, with no way to keep them warm. The guests will be breaking in ten minutes!"

Little does the new guy know! You walk over, reach under the first table and flip down a control panel, pull out an electrical cord, and hand it to the assistant. "No worries. Just plug that in, set the controls for 200, and flip those control-panels up and out of sight of the guests! No need to let them in on our little secret! Do the same with the others and we are good to go."

Under-Mount Induction Tables from Lion's Wood Banquet Furniture. Just another trick up your sleeve. That is the magic of induction warming! With electromagnetic warming equipment you open whole new worlds of possibilities in entertaining -- safely, efficiently, and most importantly, with style and flair! Warming stations that blend in with the décor. Who knew?

## Induction Specifications

### The Patented Magnetic Concealed Induction System

is designed for durability and efficiency. We offer an industry exclusive opportunity to operate up to eight chafing dishes on a single dedicated wall plug. The induction units are mounted beneath the tabletop surface and the induction energy works through the tabletop. Industrial-strength magnets are embedded under the table surface holding the display piece in place during transport and use.

### The Lion's Stone Induction Advantage

No need to buy new chafers and display pieces. Our induction units work with most cast iron or induction-ready chafers and pans.

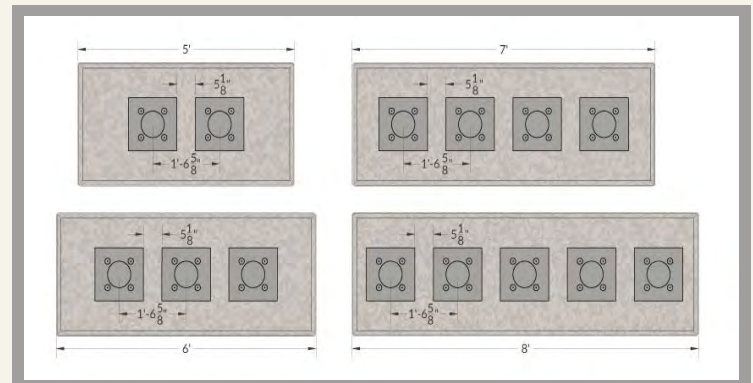

### Our Revolutionary Concealed Induction Warming Units:

- Efficiently heat chafers using 200-300 watts. (That's 1.8 - 2.5 amps each!)
- Can run up to 8 chafers on a dedicated 20 amp outlet
- Have a patented magnetic system that attaches the chafier to the induction surface.
- Do not heat the tabletop surface, which stays cool to the touch. Only the chafing dish is heated.
- Are mounted under our proprietary surface which is scratch, heat and stain resistant.
- Allow tables to be used as standard presentation tables when not warming dishes.
- Feature a control panel that is capable of being hidden from view when not in use.
- Are Green; no fumes, flames, CO<sup>2</sup>, chemical smell, or empty cans in our landfills!
- Hold an even, constant heat.
- Heat continuously for up to 9 hours non-stop with programmable controller.

## Sizes of Induction Tables

We offer induction tables in four standard sizes, and a corresponding number of induction units:

- 30" x 60", with up to two units per table,
- 30" x 72", with up to three units per table,
- 30" x 84", with up to four units per table,
- 30" x 96", with up to five units per table.

## Induction Adaptable Lines

### Lion's Wood Banquet Furniture Induction Adaptable Lines of Tables

These are the tables that we offer into which we install induction equipment. Please choose a line from these offerings and refer to the available literature for that line to learn more about the materials, finishes, shapes, sizes and other accessories available within that particular line of tables. Consult with your local Lion's Wood Banquet Furniture Representative to learn more and to explore all of our offerings. Some of these are available in suites, related furniture groupings that allow you to create a seamless environment for your guests.

### Portable Induction Cooking Units

Sometimes you just HAVE TO COOK. That's why we make these available to you. The same Induction units as our Induction Action Stations, only portable. You really *can* have it all!

## VERSATILE • DURABLE • MOBILE

### Hide-away Control Panels

Induction controls may be mounted in hide-away panels that swing out of sight when not in use. These four images illustrate the difference that makes -- set them and forget them, then hide them away.

"And for you?"

"Western omelet -- egg whites only please."

"Very good- right away!"

Bananas Foster - Whoosh! The flame soars to thrilled "oohs" and "aahs" from the crowd.

Just like hanging out with friends in the kitchen when you have a dinner party at home, there is something special about cooking food for people and serving it hot - right off the stove. But you have fifty guests at this brunch and the kitchen is a thousand feet away from the ballroom. That is where the magic of induction cooking comes in. With electromagnetic cooking and warming equipment you open a whole new world of possibilities in entertaining - safely, efficiently, and most importantly, with style and flair!

At Lion's Wood Banquet Furniture, our commitment to making it easy for you to do your job and look good while doing it results in beautiful transformations of our most popular tables from serving buffets to sophisticated pieces of cooking equipment.

Think of them as stoves really - disguised as furniture. You decide how to use our designs in your operations. In this brochure we will introduce you to our surface-mount induction lines, provide you with the options we offer and show you the Lion's Wood Banquet Furniture tables capable of incorporating induction.

# Induction Cooking

## Induction Specifications

### Lion's Wood Banquet Furniture's

heavy-duty commercial induction tables are designed for versatility, durability and efficiency. These surface-mounted units may be used as cooking units or as warming units. They are extremely efficient; you may have up to two omelets cooking on a single 20-amp outlet, or run up to eight chafers on a single 20-amp outlet for warming stations. (Induction cooking tables may also serve as warming stations.)

## The Lion's Wood Induction Advantage

No need to buy new chafers and display pieces. Our induction units work with most cast iron or induction-ready chafers and pans. We do not push you into a system designed to work with a proprietary set of cookware, so we are free to offer an induction system that is designed to allow you to use your existing pieces or the manufacturer of your choice for pots and pans. Efficiency of induction energy production is our focus. The induction equipment we build into our furniture is patented, cutting edge design, because that is what you want - and what you deserve in your induction equipment choices.

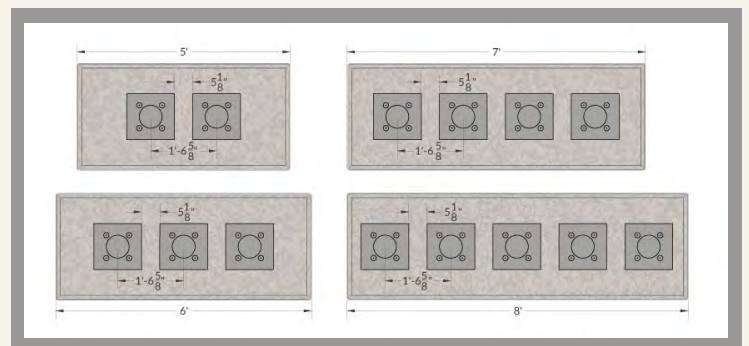

### Our Revolutionary Induction Warming and Cooking Units:

- Efficiently warm chafers using 200-300 watts.(That's 1.8 - 2.5 amps each!)
- Also have an operating range of up to 1200 watts for live cooking for your guests.
- Can run up to 8 chafers on a dedicated 20 amp outlet on warming function.
- Do not heat the tabletop surface, only the chafing dish is heated.
- Feature a control panel that is capable of being hidden from view when not in use.
- Are GREEN ; no fumes, flames, CO<sup>2</sup>, chemical smells, and - NO empty cans in our landfills!
- Hold an even, constant heat.
- Heat continuously for up to 9 hours non-stop with programmable controller on warming settings.

## Sizes of Induction Tables

We offer induction tables in four standard sizes and a corresponding number of induction units:

- 30" x 60" with up to two units per table,
- 30" x 72" with up to three units per table,
- 30" x 84" with up to four units per table,
- 30" x 96" with up to four units per table.

## Induction-Adaptable Lines

### Lion's Wood Banquet Furniture Induction-Adaptable Lines of Tables

These are the tables we offer into which we install induction equipment. Please choose a line from these offerings and refer to the available literature for that line to learn more about the materials, finishes, shapes, sizes and other accessories available within that particular line of tables. ## FARM TO TABLE

Farm-to-Table is a popular culinary movement right now, which is the inspiration for our Farm Table - rich weathered, reclaimed wood finishes matched up with rugged stone tabletops in oversized shapes and sizes.

Lay out a feast on the Farm Table, and include Induction Warming to keep the food nice and warm throughout the entire event, or install Induction Action units and cook up a storm for the crowds.

Our tabletops come in a variety of surface options such as Fine Wood Veneers, Quartz, and Lion's Stone- our proprietary industrial porcelain surface - extremely tough and durable.

## VERSATILE • DURABLE • MOBILE

Adaptable and attractive, these tables can be stored in plain sight, complementing your décor while saving storage space.

And the Savings realized in Linens, Laundry and Labor costs provide a very quick return on your investment!

The Lion's Wood Classic Serving Cart offers all of the same linen-free style you expect from Lion's Wood, and an extra shelf below the tabletop. We took the proportions and size of the classic American Harvest table and dressed it up – the Classic Serving Cart with fluted legs and rope molding trim has a truly elegant look in Mahogany on Ash with a quartz tabletop. Or go flute-free with no trim, a rustic wood top, and finish it with Brown Glaze on Ash. We can cover a lot of ground with this table, and you can too. Make it your own!

The Classic Serving Cart makes a beautiful fixture for your banquet halls and meeting spaces. This cart features nylon locking swivel-casters for mobility and a rubber bumper on the tabletop to protect the edges.

The Classic Serving Cart tabletops come in a variety of surface options, such as Fine Wood Veneers, Quartz, or Lion's Stone- our proprietary industrial porcelain surface - extremely tough and durable.

We also offer glass tops for additional protection for the tabletop surfaces, adding to the durability and ease of use of this table.

## VERSATILE • DURABLE • MOBILE

Adaptable and attractive, these tables can be stored in plain sight, complementing your décor while saving storage space.

And the Savings realized in Linens, Laundry and Labor costs provide a very quick return on your investment!

The Lion's Wood Standard Table features a rugged square leg with an Industrial-style apron construction and will be the workhorse of your banquet operations. Economically priced and built to last, the construction of the Standard Table combines modern design and the long-standing craftsmanship that is the hallmark of Lion's Wood Banquet Furniture.

The 4" diameter locking, 360 degree nylon swivel-caster allows for easy mobility on all floor surfaces.

Adding to the durability of our tables is our protective tabletop bumper, a Lion's Wood exclusive. Use this multi-functional table for Coffee Breaks, Buffets, and many other applications, while eliminating costly linens and skirting and reducing labor set-up times. We've added Corian Solid Surface material as an option for tabletops, greatly expanding the look and functionality of the Standard Table.

## VERSATILE • DURABLE • MOBILE

Hospitality has its own demands, and Lion's Wood creates solutions that make you look good. Our Mobile Action Stations are just one more way we provide you with products that expand your options for creating memorable events with live action. With so many options for style and finish we can provide something for everyone.

At Lion's Wood Banquet Furniture, all orders for custom furnishings are confirmed by an order form showing the furniture and finish details, or a by drawing by our Design Department, showing all the details and finishes for client approval.

The Lion's Wood Nesting Tables are as attractive as they are functional. The original Lion's Wood Nesting set has a classic look with solid wood aprons, tapered solid wood legs, and your choice of tabletop materials. They are very strong and beautiful. But the real beauty of The Lion's Wood Nesting Tables is that they may be stored in plain sight, elegantly occupying a fraction of the space that they provide when open.

We also offer Nesting sets in Stainless Steel or Powder Coated Steel for a more contemporary environment. Metal Frame Nesting tables are available with all of the same tabletop and Edge treatments offered in the wood models, or with a very sleek recessed top inside the frame.

The 3" diameter locking, 360 degree nylon swivel-caster allows for easy mobility on all floor surfaces. You may purchase sets of two or three of the tables offered in nesting sets. Tables are also available as singles.

### Let's Work Together

We offer these choices so that your Nesting Tables perfectly reflect your property's décor. Work with your Lion's Wood Banquet Furniture Representative to select your surface materials, options, and accessories.

### If You Don't See What You Want...

We are constantly expanding the options that we offer. Please be sure to visit us on the web at:  
[www.lwbanquetfurniture.com](http://www.lwbanquetfurniture.com)  
to see the latest.

### Protective Edge

### Because We Care

We care about your Nesting Tables, we care about your walls, and we care about your other decorative furnishings too. We know how much abuse these things can take in the fast-paced world of Hospitality. That's why all wood Nesting Tables come with a Solid Wood Beveled Edge detail that includes our exclusive protective bumper, to protect not just the edges of the Nesting Tables, but everything else too!

## Nesting Table Construction Details

Wood Nesting Table with Tapered Solid Wood Leg and Quartz top.

Steel Nesting Table with Quartz Top in stacked position.

Matterhorn Quartz Top, Mahogany on Ash, Tapered Solid Wood Leg in fanned position.

Stellar Night Quartz Top, Steel Leg and Apron with Custom Powder Coat in fanned position.

### Nesting Table Details:

The Lion's Wood Nesting Tables are designed to fit one-beneath-the-other, greatly increasing the amount of display area that you get in the footprint of the largest member of the set.

And because all are linen-free, they may be placed as furniture in the meeting rooms and hallways when not in use. Use all three together to create a tiered buffet display or use them separately.

# Lion's Wood Design Solutions

Hospitality has its own demands, and Lion's Wood creates solutions for you that make your job easy, and make you look good. Our Nesting Tables are just one example of how we provide you with products that can be put into service when needed, and serve as decorative furniture pieces in the Front of House, freeing up valuable storage space in the Back.

At Lion's Wood Banquet Furniture, all orders for custom furnishings are confirmed by an order form showing the furniture and finish details, or by a drawing by our Design Department, showing all the details and finishes for client approval.

*Shown with Removable Shelf*

*Wood Edge and Bumper on Metal Frame*

**Versatility:** The Nesting Tables come in so many styles of Tabletop, Edge Treatment, Apron and Leg styles, and in so many finishes - there is no end to the possibilities! Designed to be part of the presentation, all of our tables are linen-free - no need to hide them from view when not in use!

**Durability:** The construction details used in the Lion's Wood Nesting Table make it a great addition to your property; the legs and frames are made of solid wood or sturdy metal tubing for strength and durability, and the rugged Nylon Swivel Casters can take a beating rolling over tile, stone, carpeted floors and floor transitions.

**Mobility:** Lion's Wood Banquet Furniture sets the standard for Mobile Banquet Furniture. All of our tables either have casters built-in, or are designed to be transported on carts and set up quickly with no tools.

Lion's Wood Banquet Furniture offers many fine lines of wood furniture to serve the Hospitality Industry, and everything else you need to create dynamic events for your guests. We know that sometimes the strength and durability of metal is what you need to carry the day, so we created our Tahiti Metal Carts with a sturdy steel base and bottom shelf.

Our tabletops come in a variety of surface options such as Fine Wood Veneers, Quartz, and Lion's Stone- our proprietary industrial porcelain surface.

We also offer glass tops for additional protection for the wood surfaces, adding to the durability and ease of use of this table.

Black

Stainless

## METAL OPTIONS:

Stainless Steel

Brass

## DESIGNBOARD:

HDPE (High Density Polyethylene) is a modern material that is seen most commonly in boat and yacht furnishings - because it is a beautiful, solid plastic material, is completely water-proof, and very structurally stable...Wonderful for carts that look good and see a lot of moisture.

## Service Carts to Your Specifications

This catalog section features just four of the many specialty carts that we provide for the Hospitality Industry. The beauty of it is that you create it to your own design. Work with our design department and we can create a solution to any challenge you may face. Let us create a suite of Service Carts for your property that enables your Staff to serve your guests with style and ease. Ask your Lion's Wood Banquet Furniture representative to share your vision and the challenges unique to your situation. Together we will come up with exactly what you have in mind, and create it to your specifications!

Three views of the Prettyboy Busser Cart

## Cart Descriptions

### The Capitol Beverage Cart

When you need a lot of beverages on site, that can be kept under lock and key, consider the Capitol Beverage Cart. Constructed from 304 series stainless steel, the cart can also be finished with your choice of laminates.

The product features standard dimensions of 24"W x 48"L x 42"H. Also available as an Ice Cart.

### Tivoli Food Service Cart

Now presenting a food service cart that is not only rugged enough to be used in the back of house, but attractive enough to be used in the front of house.

Our Tivoli Food Service Carts measure 25"W X 42"L X 36"H and feature waterproof shelves and classy casters.

### The Prettyboy Busser Cart

Our busser carts are crafted with finished wood veneers. With standard dimensions of 26"W x 45"L x 48"H, the busser cart depicted can accommodate up to six standard bus tubs. As seen, the cabinet features sliding doors that allow you to keep the cabinet open without obstruction, and close it when full to keep contents out of view of guests.

### The Evolution Service Cart

These all-metal utility carts are constructed with 304 series stainless steel and are built to last.

The shelves feature a lip so items do not slide off the cart. Standard dimensions are

24"W X 48"L X 36"H.

# Lion's Wood Design Solutions

Hospitality has its own demands, and Lion's Wood creates solutions for you that make your job easy. Our Carts enable you to do your job efficiently, effectively, and look good while you are at it!

At Lion's Wood Banquet Furniture, all orders for custom furnishings are confirmed by an order form showing the furniture and finish details, or by a drawing by our Design Department, showing all the details and finishes for client approval.
