

# OWNER'S MANUAL WATER PITCHER

*This portable Micro-Filtration System is the answer to today's need for safe and accessible drinking water.*

## KEY FEATURES

- Naturally enhances the alkalinity of source water up to 9.5pH
- Pitcher filter removes up to 99.99% of contaminants in drinking water.
- Filters up to 200 gallons before filters need replacing.
- Fast flow rate: 7.5 minutes to filter ½ gallon
- Retains beneficial trace minerals.
- All plastics are FDA food grade approved, BPA-free, and non-leaching.
- Filters made in USA.

\*The pitcher filter was designed to be used with chlorinated or disinfected water supply only. They are not intended to be used with water from private wells (unless pre-filtered), rivers, lakes, or the ocean.

## QUICK START INSTRUCTIONS

1. Unpack contents from box.
2. Remove filters from reservoir.
3. Wash carafe, lid, and reservoir with mild soap and water. **(Do not wash filters.)**
4. Flush filters. (See flushing instructions.)
5. Screw filters on bottom of reservoir. Filters attach below the reservoir.
6. Re-insert reservoir into the carafe.

*You are now ready to fill up your pitcher!*

\* For quality control, the filters have been pre-flushed.

## MAINTENANCE AND STORAGE

Remove filters before cleaning water pitcher. Plastic parts can be cleaned with a mild liquid detergent.

### DO NOT WASH FILTER.

If you do not intend to use the water pitcher for an extended period of time, remove the filters from the reservoir, rinse with your flush bulb, and allow to fully dry.

**DO NOT** put in freezer.

**DO NOT** use with hot water.

**DO NOT** use with salt water.

**DO NOT** use with anything but water.

**DO NOT** put in dishwasher.

**\*Exclusive filter is tested by EPA and State registered laboratories and meets or exceeds EPA/ANSI protocols/methodology, and NSF Standards 42 and 53 by Broward Testing Laboratory.**

## CONTAMINANT REDUCTION AND REMOVAL

The exclusive Ionic-Adsorption Micro-Filtration System eliminates or reduces up to 99.99% of the following water contaminants:

**Aesthetic:** unpleasant odors, chlorine, silt, sand, and sediment

**Chemical:** industrial and agricultural chemicals, including polychlorinated biphenyls (PCB's), trihalomethanes (THM's), detergents, pesticides, insecticides (DDT), volatile organic compounds (VOC's), fungicides, herbicides, and nitrites

**Dissolved solids:** heavy metals including, lead, chromium-6, mercury, cadmium, copper, arsenic, zinc, and up to 90% fluoride.

**Radiological:** radon 222

## 90-DAY GUARANTEE

Manufacturer warrants the portable water filtration system to the consumer for a period of 90 days from the date of purchase, when used in accordance with the manufacturer's instructions. If there are any defects with the product, return the unit (postage paid) to the distributor with a valid purchase receipt. This guarantee does not cover improper use, maintenance, and/or premature clogging by overly turbid water. This warranty gives the consumer specific rights. Manufacturer shall under no circumstances be liable for any special, indirect, or consequential damages due to misuse of goods. Manufacturer makes no warranty of fitness or merchant-ability and no other warranty, oral or written, expressed or implied, except as specifically set forth herein.
