Vapor Density:	Heavier than Air
pH:	Neutral
Flash Point:	>145 F (TCC)
Shipping Class:	55
Shipping Weight:	5 gal. pail 35 lbs. 55 gal. drum 386 lbs.
Specific Gravity:	.824
Solubility:	Water emulsifiable
Coverage Rate:	Up to 150 sq. ft. per gallon
Reactivity:	Stable
HMIS Rating:	1-2-0
Shelf Life:	Indefinite
DOT Shipping Name:	Not DOT Regulated On containers less than 120 gallons

Pro Clean is designed to give you the maximum power while still being in the no odor category. It quickly cuts through mastic to get the job done and has a superior surfactant system that allows for easy rinsing and final cleaning. This product will get the job done with fewer odor complaints while dissolving the mastic with the speed you need.

Directions:

1. Read and understand material safety data sheet when using this product.
2. Cover and dike walls, woodwork, drains and cracks.
3. Apply Pro Clean over all black mastic and adhesives. This may be done manually or with garden sprayer to 5' x 5' square areas.
4. Use a stiff bristled broom to agitate over the area. More than one application may be necessary.
5. Allow as little time as necessary to let Pro Clean penetrate and soften adhesive.
6. After the mastic is dissolved use a squeegee to clean up liquefied mastic and dispose of properly. The use of absorbents may aid in this process.
7. Aggressively clean surface with water and **Pronto Extra Wetter wetting agent** detergent for best results. Allow the surface to dry a minimum of 24-36 hours before applying new mastic and new flooring.
