

Press Release

ROTO POLYMERS SPONSORS THE 2017 ARM/ARMA JOINT EXECUTIVE MEETING IN MAUI, HAWAII

Cleveland, OH – February 7, 2017 – Established rotomolding natural resin supplier and color compound manufacturer, Roto Polymers, announces they are attending and co-sponsoring the upcoming 2017 ARM/ARMA Joint Executive Meeting. The event is set to take place in Maui, Hawaii March 26-28.

This will be the first Joint Executive Meeting for ARM (Association of Rotational Molders) and ARMA (Association of Rotational Moulders Australasia Inc.). The membership of the two rotomolding trade organizations consist of manufacturers of rotationally molded plastic products, suppliers to the industry, designers and professionals from around the world.

Roto Polymers is an innovative leader in the rotomolding industry. Since 2012, Roto Polymers has positioned itself as a top supplier of high quality natural resins and manufacturer of color compounds. In fact, Roto Polymers is one of the largest natural rotomolding resin suppliers and color compound manufacturers in North America, supported by an infrastructure that supplies a volume of over 200 million pounds per year in over 30 countries. Roto Polymers' rotomolding resins are produced into five distinct polymer products: ROTOLENE[®], ROTOLENE HIGH FLOW[®], ROTOLENE INDUSTRIAL[®], ROTOLENE HD[®] and ROTOLENE BLACK ULTRA[®] (recycled).

Each one of their rotomolding resins are uniquely formulated to have specific properties and characteristics that fit a host of industrial and commercial end applications, including industrial, agricultural, chemical and water tanks; large cisterns, trash containers, bulk containers and marine parts; outdoor chairs, kayaks, coolers and hot tubs; and outdoor playhouses, slides and swing sets.

Roto Polymers has created global industry partnerships by making their rotomolding resins accessible. They do this by offering their products at internationally competitive prices so customers have options when purchasing.

To request a quote or place an order with Roto Polymers, call their Cleveland, OH location at (216) 591-0175 or email info@rotopolymers.com. For more information on their rotomolding resins and compounds, visit rotopolymers.com.
