AM I SICK WIT IT

We come to meetings from all walks of life. Some were criminals from early child. Some were the offspring of super successful parents then are those who have come to our meetings blind to the Idea that they were criminal least alone anything close to a gangster. That soon changed when a question was presented: "What percentage of people In America are criminal?" Ask yourself this question. Ask a number at different people. Do a survey of your own. You'll find out how much of an Island you've been living on. It's very lonely we know.

Many entered their first meeting after a nudge from the judge. Some only needed their friends and family members concern. A concern for our safety as well as their own. "This incredibly lucky recovering gangster was blessed to have had a friend who truly cared and wanted to see them happy. Our disease is intelligent, strong willed and very slick. It protects us from others while it kills us Internally.

It creeps into our relationship with our loved ones and over powers them with control. It directs us to feed off anything criminal and most things gangster related. It hides in our anger Issues. Constantly smiling as we maneuver through classes geared at helping us control our emotions. Our disease knows very well anger has nothing to do with being gangster sick. We are criminally programmed to react a certain way during a certain event. Practicing the G. A. 12 Steps has had great results. Our fellowship realizes the solution now lies in the hand of each individual. We advocate recovery for the gangster sick man and woman.
