

Bucket Cover Measuring Guide

Directions

- Measure the inside of the opening of your bucket, NOT including the lip (X and Y).
- Most buckets are 24" from front to back. Left to right, most buckets are 24", 30", or 48".
- The industry then refers to those dimensions as the size of your bucket: (24 x 24, 24 x 30, or 24 x 48).
- There are many variations in actual dimensions, so to be safe you can also measure outside to outside of the lip (1 and 2).
- Then compare those numbers to the measurements listed in the description of each cover.

Call or email with any questions so we can get you the right cover!
