Turgla Wood

Turgla Wood Boards are produced from Iroko Wood- west African teak- that is extremely durable and resistant to moisture. Turgla Wood boards -unlike others- are produced from single piece wood blocks eliminating the seam lines connecting with glue. This makes Turgla Wood boards not only very presentable but also durable against warping, separation due to usage and moisture. The combination of our colorful plates and Turgla Wood boards brings the wow factor each time we present a dish to a guest.

Care & Use Instructions

To keep wood from drying out and decrease the water absorption , board should be seasoned with a food-safe mineral oil before first use and periodically afterwards. Hand-wash with hot, soapy water. Dry thoroughly.

Do not soak or submerge board in water. To sanitize, wash the board with a solution of one part vinegar to five parts water. Occasionally rub with a food-safe mineral oil to keep wood from drying out. Store in a dry area away from extreme temperatures.
