

The Power of a Single Voice

There is no such thing as a single voice. Rather there is a voice that speaks for many who don't speak for themselves for one reason or another. When you give light, expansion, vision, and determination to the level of "voice" you speak for many. Often people you don't even know.

I cannot tell you how many times over the course of my career people have written to me or email me thanking me for my words. They are happy and grateful their views or thoughts, are being reflected back to them .

My words said what I want to say. They reflect my thoughts and views. I am giving myself power and permission to have a voice. In so doing I empower others...many I don't even know. There have been many times when people call me and I routinely ask "how did you find me?" They offer some obscure reference. "I was at a cash register checking out and heard two women talking about you." The point is that energy travels. You can't always see it. It makes a difference when you show up in integrity and with the purpose of contribution. People are on high alert for that frequency consciously and unconsciously.

You are the same as me. You have the power to speak for others when you speak for yourself. Never think your voice standing alone in a hall or on a phone call, or just between friends, is just for you. We are all connected through energy. When you put your energy into consciousness, whether you see it or not, it goes somewhere.. it touches someone. Then you see it makes a difference.

In these times of unprecedented "separateness" remember, your voice matters. Raise your voice...rise into the fullness of your heart and who you are.. give your wisdom and your love wings to fly.
