

Glü® is the retail version of a proprietary industrial adhesive formulated to bond plastic to plastic. It is a 100% PURE GLUE, with NO SOLVENTS.

K-CO Products has used the industrial version of this formula in the assembly of its Johnny Jolter PRO Power® Plunger, a leader in its category. One day, we needed to glue something in our shop that was metal to composite. We had no other adhesive, so we tried the industrial formula we had been using. It not only wrked but set and cured fast. Subsequently, we tested it on every substrate we could think of, and every time it WORKED!

It was then that the idea came up to develop a consumer brand and bring this fantastic item to the retail market. The result is the Glü® brand, made available in 1oz. and 1/2 oz. sizes.

When your customers need a glue for plastic to plastic, or anything else, Glü is the perfect solution.

Both sizes are available in either a 6pc Tray, or on a 6pc Clip Strip for ease of merchandising and driving impulse sales, with wholesale pricing shown below.

0.5 oz.

1.0 oz.

“Finally...a Glue for Everything!”®
