

March 23, 1977

TO WHOM IT MAY CONCERN:

This is to certify as to the capacities and craftsmanship quality of Rolando Flores as a General Contractor puts into each and every house that he builds, whether it's a spec house or a house that he might be building for someone else.

In my capacity as Building Inspector for the City of Halfmoon Bay, County of San Mateo, Cal. I hereby highly praise and recommend his work and knowledge in every phase of the Construction field as one of the best I have seen in a long time, wish we could have more like him, to take so much pride in their work.

Sincerely:

Paul S. Schmidt
