

WinterGrade Mastic

WinterGrade Features:

- Withstands cold temperatures
- Will not freeze in shipment
- Meets ASTM D 4586 Type 1
- Adheres to damp and wet surfaces

HouseGuard's WinterGrade Mastic is a heavy bodied mastic with a special additive to help adhere to damp or wet surfaces. Its unique ability to adhere to wet surfaces makes it the perfect cement to use in inclement weather. WinterGrade Mastic is just what you need for tie hole patching prior to application of the waterproofing and/or damproofing membranes. WinterGrade Mastic is easy to apply and handle, the product can be applied with a trowel or putty knife. Available in five gallon pails. One – five gallon pail will cover approximately 62 square feet.

Technical Data

Product name	WinterGrade
Mastic	
Percent Solids by Weight	78%
Percent Solids by Volume	70%
Weight per Gallon	9.6 lbs
Flash Point	105 F
P.H.	N/A
Viscosity at 77 F	64,000 cps.
Long-Term Service Temp	-60 F. - +160 F
Water Resistance: Intermittent Exposure	Excellent
Water Resistance: Poned	Fair
Solvent Resistance	Poor
U.V. Resistance	Good
