

Tips For Selecting A Pet Food

At Tommy's Pet Studio we proudly feature natural, holistic and human-grade pet foods. We also carry delicious treats and natural supplements all with ingredients that promote a healthy diet and vibrant lifestyle.

Look For...

- **Clearly named meat or fish**—chicken, lamb, beef, salmon
- **Concentrated named meat proteins**—chicken meal, turkey meal
- **Whole grains and starches**—brown rice, barley, sweet potatoes
- **Fresh fruits and vegetables**—whole potatoes, carrots, apples
- **Named fats from quality sources**—chicken fat, herring oil, sunflower oil
- **Natural preservatives**—mixed tocopherols, vitamin C or E
- **Probiotics and prebiotics** – alternatively you can supplement your pet's diet

Avoid...

- **Non-specific ingredients**—poultry by-products, meat and bone meal
- **Protein fillers**—corn gluten, wheat gluten, egg product meal
- **Carbohydrate overload**—refined flours, wheat, mill runs
- **Processed fruits and vegetables**—tomato pomace, dehydrated potatoes
- **Fats from non-specific sources**—poultry fat, animal fat, vegetable oil
- **Artificial preservatives**—BHA & BHT
