THE **D** LOFT
Cafe

The café is focused on being a hub
for the food industry beyond a
commercial space. We are acting as
a incubator/distribution channel to
increase your food foot print. As the
distribution service we are able to
sell direct to consumer or corporate
account, we can deliver and service
your customers for pick-ups of
private/large orders and we act as a
marketing channel for you to gain
more traction.
