

## Instructions for downloading and completing registration form

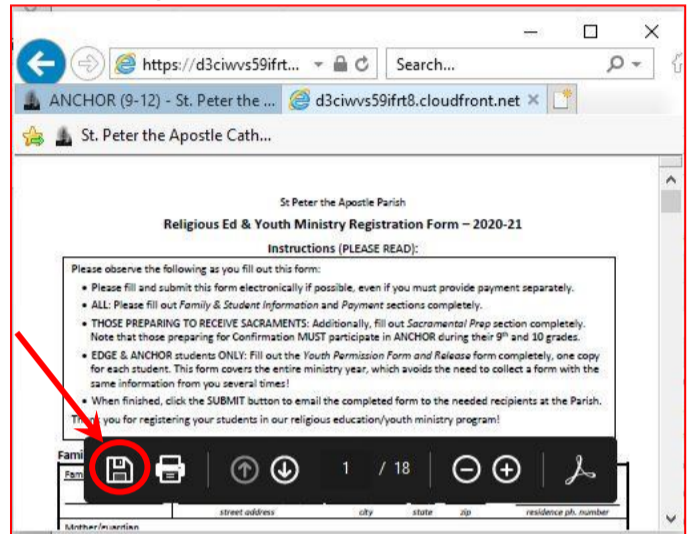

Most web browsers allow you to open and fill out pdf files, but they do not provide the functionality needed for fee payment and electronic submission. Therefore, download the registration form to your computer and fill it out using Adobe Acrobat:

1. Verify that you have Adobe Acrobat installed. If not, get a free copy at <https://get.adobe.com/reader/>
2. Navigate to the registration form on our webpage and then click on the Save or the download icon in the upper right corner of the browser (or bottom of the page). You will be prompted for a location. You might want to change the filename to something easier to remember.

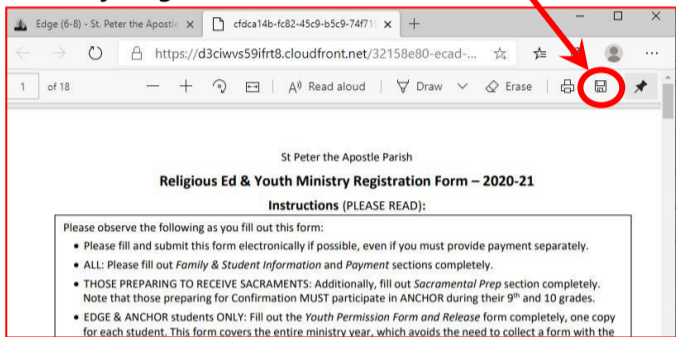

### Google Chrome

### Internet Explorer

### Microsoft Edge

3. Close your browser (or navigate away from the form) in order to avoid confusion.

4. Now open the form that you saved in Step 2. Be sure that it has opened with Adobe and NOT your web browser. If it DID NOT open with Adobe, do either of the following:

- Change the file association to cause ALL pdf files to be opened with Adobe: Right-click on the file, select "Properties," press the Change button in the dialog box, and select Adobe Acrobat" from the list

OR

- Open the form this one time with Adobe Acrobat: Right-click on the file, select or hover over "Open with," and select Adobe Acrobat.

5. Once opened in Adobe, the form should work as designed. If you are still having problems, please call kp at the parish office.
