Titan's Customer Relationship Manager (CRM) was designed to empower the precast sales representative.

The "Customer Dashboard" is the center piece of our CRM system and offers information that only Titan can provide. Our "Contact Management" screen and "Weekly Planner" screen round out what might be the most powerful CRM system in the precast industry.

Sales representatives can now effectively organize their customer appointments, create "to-do" lists, email clients and share all this information with fellow employees.

Our "Drilldown" feature allows users to quickly move between customers, contacts, jobs and quotes.

Titan's CRM...vital information at your fingertips.
