Tyler Florence
CHEF, AUTHOR, FOOD NETWORK STAR

Welcome to the Pinnacle of Cookware

Developed by chefs. Handcrafted in Italy.
Explore the next level of culinary performance.

Here at Hestan, we are on a constant pursuit of culinary innovation to bring you the best cookware that money can buy. We work meticulously with Michelin star chefs to engineer features that elevate the cooking experience in every way. It's no wonder we are the top cookware brand used and preferred by professional kitchens.

Each collection of Hestan cookware delivers revolutionary culinary performance with innovative design and remarkable materials to complement any cooking style with striking beauty and unmatched innovation, backed by 14 global patents; you can't fake quality. That's why every product is meticulously handcrafted in our own factories to meet the highest standards of fit and finish. Hestan cookware not only cooks beautifully - but will still look beautiful for years to come.

 HESTAN

A Constant Pursuit of Culinary Perfection

Just like anything in the kitchen, to create exceptional cookware, you must begin with exceptional ingredients. That begins with our high-quality materials like molecular titanium, 18/10 stainless steel and pure copper. The skill and artistry of our craftsmen are also vital ingredients. Their stunning attention to detail is the only way to create cookware to our standards of performance and aesthetics. Simply put, no other cookware meets the thresholds for quality and construction.

Hestan Factories

Bergamo, Italy

We collaborated with some of the world's greatest chefs to design our cookware. Then we built our own cookware factories in Italy so we could work with the world's greatest craftsmen. We don't just own the factories, we own the entire manufacturing process from design to construction to shipping. That is the only way to ensure our standards of quality.

The Hestan Advantages

Greater Heat Conductivity

NanoBond and ProBond Luxe's ProCore™ aluminum heats up 35% faster than typical clad cookware.

Sealed Rims

NanoBond and ProBond Luxe's rims are sealed to prevent delamination and separation.

Flush Rivets

Chef-inspired flush rivets prevent food build up, and allow for nesting for easy storage.

Ergonomic Handle

French-inspired ergonomic handle rests easily in the hand for greater comfort and total control.

Optimized For Induction

A wider base creates a larger, sleeker surface to initiate better contact with induction cooktops.

Flared Rims

Flared rims allow for drip-free pouring.

Superior Pan Geometry

Thoughtful design gives our skillets and saucepans 20% more cooking surface area than competitors.

Durable Nonstick

Made without PFOA, reinforced with diamonds and titanium, our TITUM nonstick finish is 22x more durable than typical nonstick.

Made In Italy

Backed by a lifetime warranty and built in our own factories to the highest standards of fit and finish.

Award Winning Cookware

We are proud to be the most award-winning cookware brand with accolades from prestigious publications such as Good Housekeeping, Red Dot, Bon Appétit and more. We work painstakingly hard to ensure we only provide the highest quality cookware available anywhere.

NanoBond cookware stands for high performance, durability, and lasting beauty.

Chef Tyler Florence

NanoBond[®]

Molecular Titanium

NanoBond, our flagship collection that holds 14 patents, is the first innovation to stainless steel cookware in 110 years. Its revolutionary cooking surface is 400% harder than typical stainless steel cookware. Thousands of titanium nanolayers protect your cookware from stains and scratches – ensuring a lifetime of beauty.

You'll find NanoBond's molecular titanium gleam in acclaimed kitchens across America. Its incredible durability coupled with incomparable heat conduction deliver reliable performance dish after dish.

UPC: 051153486951

These colanders are wonderful. The base is very solid and the large handles make it easy to maneuver and it is so easy to clean. What a simple accessory but with all the quality and beauty of Hestan!

Something that I was really proud to see is the craftsmanship and the quality of materials that go into our cookware. The factory that makes them, their attention to detail, their ability to execute exactly what we had engineered was nothing short of really amazing.

Chef Corey Lee
BENU, SAN FRANCISCO

Hestan Vineyards, located on Napa Valley's eastern slopes, is a sustainably farmed estate producing award-winning wines.

Founded by Stanley and Helen Cheng, the vineyard reflects their passion for culinary excellence and innovation. The 110 acre property features a variety of grape varietals, including Cabernet Sauvignon and Chardonnay, crafted by renowned winemakers Jeff Gaffner and Thomas Rivers Brown.

Together, they create limited-release wines that embody the character of Napa Valley. The estate is also 100% solar-powered, reinforcing the Chengs' commitment to environmental stewardship.
