LUNA CARES

The National Institute of Mental Health states that mental illnesses are common in the United States. Nearly one in five U.S. adults live with a mental illness (51.5 million in 2019). Then along came COVID.

The COVID-19 Pandemic has only added to the daily stresses and has had a huge impact on mental health.

If you or your immediate family member has a mental illness, is struggling emotionally, or have mental health concerns, there are ways to get help.

LUNA Midwest Region has formed a partnership with McLean County Center for Human Services (MCCHS) to address the mental health needs of our members. MCCHS is offering an opportunity for LUNA Midwest Region members and their immediate family to receive individual therapy services, and COVID-19 grief group support services at not cost.
