

COCKTAILS-TO-GO

Throughout the pandemic, the Texas restaurant industry has suffered terribly.

Through HB 1024 and SB 298, Texas has the opportunity to **extend Governor Abbott's cocktails-to-go executive order**, which helped support Texas restaurants.

These identical bills consider the open container laws of Texas and establish protocols to preserve important safety regulations and prevent drinking and driving.

Public safety and consumer access protections are key benefits of the three-tier system, which is why **we support HB 1024 and SB 298 as filed.**
