

To Our Valued Patients,

We at Arena Eyeworks Optometry remain committed to the health and well-being of our patients and team members. We are closely monitoring the CDC recommendations and implementing safety precautions to help protect our patients and staff from the spread of the Coronavirus (COVID-19).

We will continue to provide the professional level of eye care you expect from our office. In addition to our standard practice of cleaning and disinfecting our equipment and inventory, we are enforcing extra measures to safeguard your health. Our current precautions include:

- Directing sick team members to stay home
- Instructing team members to wash their hands frequently throughout the day for the appropriate amount of time
- Sanitizing shared surfaces such as doorknobs, faucets, chairs, phones, keyboards, and mice
- Continuing to clean and sanitize shared testing equipment before and after each patient examination

Our valued patients can also help by:

- Staying at home if you are sick; we are happy to help you reschedule your appointment
- Rescheduling your appointment to a later date (following the CDC recommended 14-day quarantine period) if you have either: traveled to a high-risk destination as defined by the CDC **OR** if you have had direct contact with an infected individual
- Washing your hands frequently (for 20-30 seconds) and prior to your eye exam
- Joining us in refraining from handshake greetings

As the CDC and local officials continue to issue safety updates, we will communicate modifications to our service guidelines and product availability.

Thank you for continuing to trust us with your eye care. We are dedicated to serving you, your family, and our community.
