

**HERS 101:**  
**Understanding a Home Energy Rating System**  
Presented by: RESNET | Booth #: 421

Thursday, Aug. 8  
**12:30 – 1 PM**

With more than 2 million homes being HERS Rated and the addition of more than 200,000 rated homes each year; the HERS Index Score is the gold standard for rating a home's energy use. Participants will be introduced to RESNET's Home Energy Rating System (HERS), learn how a home energy rating works and the process for conducting one. In addition, attendees will learn how the system is used to support green building, energy efficiency and utility programs as well as building energy codes through the Energy Rating Index compliance path. The session will also cover the requirements for becoming a HERS Rater and the quality assurance standards that apply to HERS Ratings.

**DEMONSTRATION SESSIONS**

on the Trade Show Floor
