

Slim

21.5" All-In-One Optimized for Space Conscious Deployment

This all-in-one computing system is uniquely configured as a sleek, lightweight solution that is favorable as a wall or arm mounted solution. With numerous USB ports available, the Slim all-in-one allows workstation functionality to be better utilized by expanding their USB peripherals in addition to the standard workstation accessories. Smooth surfaces and Bezel design makes cleaning easy and conducive to keeping an infection controlled environment alongside the patients' bedside.
