Pocket Pad

Patient's medical record and other clinical data is viewable on demand throughout the hospital on the medical pocket pad.

Advantech Pocket Pad's aesthetic design is perfect for your hospital. It combines the best in a lightweight and flexible package to ensure medication safety. Build your intelligent hospital with Pocket Pad!

Medical Quality & Reliability

- Pocket Pad is protected from dust, particle, and water damage. It has an IP54-rating to ensure reliable operation.
- A long lasting battery is important to get through a shift. The Pocket Pad's batteries ensure 4 ~ 6 hours of uninterrupted operation.

Patient & Medication Safety

- Capture images on the spot for diagnosis, history, or insurance needs.
- Identify track, and trace patients as throughout the hospital. Pocket Pad ensures the right patient receives the right treatment.

Flexible & Programmable

- Windows-based software is easy for integrators and offers users a familiar interface.
- Data can be exchanged with ease between a number of hospital information systems and other smart devices

Pocket-sized Solution Fits in Your Hand

- Pocket Pad is slim and light, making it easy to carry throughout the day.
- It features HD resolution on a LCD screen for crystal clear images.
