Alpha Series Point-of-Care Workstations

Alpha 22 & 23

The Alpha Series all-in-one computer was created to handle the demands of point-of-care applications in hospitals and clinics where users require a commercial grade, cost effective solution. The versatile VESA mount makes the Alpha Series the perfect choice for your mobile cart, wall mount or desktop application.

Key Features

> All glass front bezel. All ports face downward for resistance to liquid ingress

> Removable, shock-mounted hard drive for security and serviceability

> Slim design allows mounting virtually anywhere

> Widescreen 16:9 aspect ratio 23" LCD or 22" LCD for compatibility with the latest software

> HDMI Video output for direct digital connection to secondary LCD monitor
