PARISH NURSE NOTES: Mental Health – there is help!! "Everyone tried to touch him, because healing power went out from him, and he healed everyone." Luke 6:19

Treatment options for mental illness includes medication, talk therapy, or a combination of various treatment modalities. Because of the options, each person must receive an individual treatment plan to address his/her diagnosis and personal needs. Starting with your family physician, find a hospital or psychiatrist that can treat the entire family. The plan should include interventions to educate the family, treat the person medically, and address the spiritual and interpersonal components of the illness. Mental illness affects more than just the patient so make sure everyone that is physically and emotionally connected to the patient seeks assistance for the ramifications of the illness. The local Mental

Health Association is an excellent place to start when seeking help. 301-663-0011 email is: mha@femha.org
