## *Welcome to* SKIN!

Whether you want to turn back the clock or hold Mother Nature at bay, the professionals at SKIN will customize a treatment plan for your skin's specific needs that will have you looking healthy, more youthful and rejuvenated.

### INJECTABLES

#### *Botox*<sup>®</sup>

Reduce or eliminate the appearance of fine lines and wrinkles on the forehead. Relaxes the muscles you use, for a more youthful look.

#### *Xeomin*<sup>®</sup>

Effective for smoothing fine lines and helping to reduce permanent wrinkle formation, with highly refined, FDA approved formula.

#### *Juvéderm*<sup>®</sup>

Instantly restore your skin's volume and smooth away deep lines and facial creases. The results are immediate with minimal downtime.

#### *Belotero Balance*<sup>®</sup>

A soft, cohesive gel filler containing hyaluronic acid for moderate to severe lines and wrinkles. Instant results and minimal downtime.

#### *Kybella*<sup>®</sup>

Contouring for moderate to severe fat below the chin. Contains a naturally-occurring molecule that breaks down fat. Once goals are achieved, ongoing treatment is not expected.

#### *Voluma XC*<sup>®</sup>

Instantly add volume to your cheek area. Can provide contour and a subtle lift for up to two years, with optimal treatment.

#### *Volbella*<sup>®</sup>

Provides improvement in the lip contour, boosts volume, and smoothes vertical creases, achieving symmetry – all in a single treatment.

#### *Vollure XC*<sup>®</sup> *Last up to 18 months!*

Eliminate, smooth, and reduce moderate to severe facial wrinkles, folds and laugh lines. Moves naturally with your facial expression.

### CUTERA LASER TREATMENTS

#### *Pearl Fractional*

An ablative laser treatment that aggressively targets deep wrinkles, acne scars, fine lines, brown spots, sun damage and uneven skin tone and texture. Penetrates the skin's surface to purge damaged skin. Stimulates the body's own natural healing process which replaces damaged skin cells with new, healthy ones, leaving your skin smooth, even-toned and younger. Most clients see results after just one treatment.

#### *Laser Genesis*

A non-ablative laser treatment that significantly improves the appearance of fine lines and wrinkles, large pores, uneven skin tone, redness and scars by gently heating the dermis below the skin's surface and stimulating collagen production. Promotes vibrant and healthy looking skin with no downtime.

#### *Limelight*

Non-ablative laser treatment, ideal for brown spots, redness and other imperfections of the face, neck, hands and chest. Uneven skin tone and signs of sun damage can be reversed with minimal downtime, leaving you with more youthful, even-toned skin.

#### *Laser Hair Removal*

The hair removal laser removes unwanted hair on the face or body and is safe for all skin types. A series of 6-8 treatments is recommended to disable all of the hair follicles in a given area.

#### *Laser Vein Removal*

The Cutera CoolGlide vascular laser safely and effectively treats superficial spider veins on the face with minimal discomfort.

## FACIAL TREATMENTS

### *Custom Chemical Peels*

Custom formulated for your unique skin type and condition, targeting the most common skin imperfections including fine lines, wrinkles, pigment discoloration, acne, blemishes and scars. Stimulates cell turnover and increases collagen production to invigorate your skin. To achieve the most visible improvement in your skin, a series of peels may be recommended.

### *Obagi Blue Peel*

This aggressive TCA chemical peel dramatically improves your unique complexion, and treats common skin problems, such as fine lines and wrinkles, blemishes, acne scars, uneven pigmentation, and sun damage, to name a few.

### *Perfect Derma™ Peel*

The most advanced, medical-grade chemical peel available! Offers an easy, consistent peeling process. Non-invasive and virtually painless. Safe and effective for all skin types and ethnicities Ask about Add on Boosters: *Perfect Derma™ Plus* or *Perfect Derma™ Clear*.

### *Dermaplane*

A gentle, exfoliating treatment, removes “peach fuzz” and dead skin cells, and allows topical skin care products to penetrate more deeply than normal. Immediate results reveal fresher, brighter, and smoother skin.

### *HydraFacial MD*

A deep cleansing facial, featuring unique vortex suction, cleanses pores by removing unwanted debris, such as dirt, makeup, and excess sebum. Perfect for acne-prone skin. A wonderful anti-aging treatment with antioxidants, glycolic acid and hyaluronic acid.

### *Custom SKIN Treatment Facial*

Provides intense moisturizing, skin brightening, skin smoothing and acne improvement, leaving your skin feeling healthy and rejuvenated.

### *Custom Oncology Facial*

Living with cancer? Spa services have been shown to increase production of endorphins which can reduce stress levels and in pain management and healing. This one-hour facial is performed by a certified oncology aesthetician trained to address the common side effects of cancer treatments and therapies such as dryness, loss of elasticity, rashes and more.

### *SkinPen Precision*

Creates microscopic channels in the skin. This microneedling treatment allows products to penetrate deeper into the layers of the skin, while improving acne scars, reversing years of sun damage, and enhances the overall appearance of aging skin with minimal down time of about 24 hours.

### *Everlasting Brows (microblading)*

Semi-permanent eyebrow enhancement, this is the latest technique that provides natural-looking brows. Manual application inserts pigment into the outer layers of the skin, giving the appearance of individual hairs. Achieve your desired eyebrow shape, fullness, and color. Two-step process with results that lasting from 12-18 months.

### *Latissé®*

An eyelash growth system that enhances eyes by stimulating longer, fuller, and darker lashes.

### *One Shot Lash Lift*

A treatment that lifts your natural lashes, curling them for up to 8-12 weeks.

### *Brow Tinting*

Frames the face and enhances the shape of the eyes and eyebrows. Lasts up to 4 weeks.

### *Lash Tinting*

A semi-permanent pigment that darkens eyelashes for up to 4-6 weeks.
