

The Lion's Wood Hospitality Table utilizes residential design details such as mitered solid wood aprons and beveled wood tabletop edges to create an elegant and useful table for your hospitality needs.

These features, combined with your choice of carved or straight solid wood legs, make the Hospitality Table a beautiful fixture for your banquet halls and meeting spaces. The Hospitality Table features nylon locking swivel-casters for mobility and the protective rubber bumper safeguards the table edges.

Our tabletops come in a variety of surface options such as Fine Wood Veneers, Quartz, and Lion's Stone-our proprietary industrial porcelain surface - extremely tough and durable.

We also offer glass tops for additional protection for the wood surfaces, adding to the residential feel of this table.

Protective Edge

Because We Care

We care about your Hospitality Table, we care about your walls, and we care about your other decorative furnishings too. We know how much abuse these things can take in the fast-paced world of Hospitality. That's why all wood Hospitality Tables come with a Solid Wood Beveled Edge detail that includes our exclusive protective bumper, to protect not just the edges of the Hospitality Table, but everything else too!
